

NAGENDRA RAMA NITHIN AKULA

Mobile: +91 9618398849

E-Mail: akulanagendraramanithin@gmail.com

PROFESSIONAL SUMMARY

SYNOPSIS

- ⇒ Having 4+ years of experience in developing Web Applications using **Java Script/ Angular/NodeJS/ Type Script/ Ajax/Bootstrap/HTML/CSS** with expertise at **Responsive UI** (For Desktops & Mobile resolutions) development.
- ⇒ Experience in designing & developing **Rich Internet Application (RIA's)** using **MVC** JS frameworks.
- ⇒ Expertise in using **JSON** and **AJAX** to link with back-end applications.
- ⇒ Integrating Front-end technologies with **NodeJS** based framework in the back-end.
- ⇒ Expertise in **debugging** and troubleshooting existing code using **Chrome Developer Tools**
- ⇒ Experience in working with **Angular 2+ modules**, components, services, templates, directives, services and dependency injection to create a **SPA**.
- ⇒ Experienced in interacting with end-users for requirement gathering, solution proposals and product demonstrations.
- ⇒ Adhere and contribute to Massive Engineering procedures, code conventions, **open- source initiatives** and **best practices**.
- ⇒ Experience with MV- frameworks (**Angular 2+**).
- ⇒ Expert level knowledge on Node or Angular along with setting up frontend build systems and automating the same using **Angular CLI** similar build systems.
- ⇒ Hands on Experience on **Web Hosting Platforms** like Bluehost and GoDaddy and Experience in Configuring Domains.
- ⇒ Have good knowledge in configuring the Secured Socket Layer to domains.
- ⇒ Very good knowledge in different development methodologies like SDLC and Agile.
- ⇒ Co-ordinated with teams and work on requirement analysis, feasibility, planning, implementing and deployment
- ⇒ Setting up milestones and ensuring the quality delivery.
- ⇒ Keep track of project status and analyzed risk management when required.
- ⇒ Working knowledge and good understanding on Software Configuration Management tool like GIT.
- ⇒ Building and ensuring cross-browser and cross-platform compatibility for the application.
- ⇒ Adept at delivering high-quality interfaces by applying proven design principles obtained from experience, industry convention, and scientific research.
- ⇒ A keen developer with expertise in using Open Source technology and UI development emphasizing on **pixel-perfect** implementations, modern programming methodologies and useful interaction design.
- ⇒ Known for positive approach towards work – can-do attitude, ability to collaborate with peers.
- ⇒ Always willing to walk extra mile for the team, flexible with often-not-so interesting work given the importance of work.
- ⇒ Have good communication skills with ability to articulate and explain complex technical concepts.
- ⇒ Passionate to positively push the web development and user experience to next level and sharpen my existing skills and competency to have the extra edge over the others.

CORE COMPETENCIES

Technical

- Programming Skills: JavaScript, Angular 2+, TypeScript, Angular CLI, NodeJS
- Database used: mongo DB.
- JavaScript Frameworks: Angular 2+, NodeJS
- Operating Systems: Windows, Linux
- Tools: Postman, Chrome Dev Tools, Mongo Compass, FileZilla Deployment Tool
- Design Tools: Visual Studio code, Notepad++, Sublime, Atom

CAREER HIGHLIGHTS

Since Sep'17
Nextwin Systems Pvt. Ltd, Hyderabad
Associate Software Developer

KEY PROJECTS HANDLED

- ⇒ **Project** : Weshoout
- ⇒ **Client** : In-House product.
- ⇒ **Duration** : Sep'2017 to Aug'2018
- ⇒ **Website** : <https://partner.weshoout.com>
- ⇒

Description: This product aims to cover the B2B & B2C. The aim of the product is to user can find a product and offers available around them at an attractive price at the right time. This is particularly true when seeking a specific product at affordable/attractive price. If there is any store around your geographical location that will offer the product at an attractive price, this needs to be conveyed/shared to the needy social circle, the consumer is not able to find a quality product they can trust. This product will be free and as such, it will allow our brand to extend its reach and visibility in the market. It will be a strong complementary product to our existing paid/expensive offerings for local business.

Responsibilities

- Involved in Design, Development and Deployment processes.
- **Responsive Web design (RWD)** approach focused at crafting sites to provide an optimal viewing experience
- Adapting to the user's needs and device capabilities by implementing **Responsive web Design**.
- Integrating **REST API Services** which aligns with Angular.
- Expert level knowledge on Angular along with setting up frontend build systems and automating the same using **Angular CLI** similar build systems.
- Played key role in development of Search Functionality using Object oriented JavaScript & Bootstrap.
- Adhere and contribute to Massive Engineering procedures, code conventions, **open- source initiatives** and **best practice**
- Integrated Charts with **JSON**.
- Mobile Based resolution has achieved.
- Develop and enforce Unit tests, Accessibility guidelines & Web standards for the product.
- Integrated google fabrics to track the real time Bugs and Application crash reports.
- Implemented google analytics in app to monitor the traffic on the application.
- Plays a key role in achieve complex use cases and implementations.

Since Aug'18
Nextwin Systems Pvt. Ltd, Hyderabad
Associate Software Developer

KEY PROJECTS HANDLED

- ⇒ **Project** : Pheidy
- ⇒ **Client** : In-House product.
- ⇒ **Duration** : Aug'2018 to Mar'2019

Description: This product aims to cover the B2C. Pheidy is an on-demand service created to make your pickup and delivery needs. We're an app that connects you to the nearest Pheidy who can make can pick up items from any-where you want (Home/Office/store/restaurant etc) in the city and bring them to you. Pheidy would change the way you move things, how you shop and lets you access your city like never before. Pheidy assures that the package is delivered at the right place with great safety and in the right time. We deliver everything that closely matters to you (Office documents, college papers, notary, appliances, groceries etc) and promise to provide prompt service every time you book us. You can trace and find out the delivery status of all your goods right from your smartphone through our GPS systems 24x7.

⇒ **Responsibilities**

- Involved in Design, Development and Deployment processes.
- **Responsive Web design (RWD)** approach focused at crafting sites to provide an optimal viewing experience
- Adapting to the user's needs and device capabilities by implementing **Responsive web Design**.
- Integrating **REST API Services** which aligns with Angular.
- Expert level knowledge on Angular along with setting up frontend build systems and automating the same using **Angular CLI** similar build systems.
- Played key role in development of Search Functionality using Object oriented JavaScript & Bootstrap.
- Adhere and contribute to Massive Engineering procedures, code conventions, **open- source initiatives** and **best practice**
- Integrated Charts with **JSON**.
- Mobile Based resolution has achieved.
- Develop and enforce Unit tests, Accessibility guidelines & Web standards for the product.
- Integrated google fabrics to track the real time Bugs and Application crash reports.
- Implemented google analytics in app to monitor the traffic on the application.
- Plays a key role in achieve complex use cases and implementations.

Since Apr'19
Nextwin Systems Pvt. Ltd, Hyderabad
Associate Software Developer

KEY PROJECTS HANDLED

- ⇒ **Project** : Mploid
- ⇒ **Client** : In-House product.
- ⇒ **Duration** : Apr'2019 to till now

Description: Mploid is the professional ID on your Smart-Phone. It enables employees to issue their own digital ID. They can simply enter information on the link sent and create an Mploid on their mobile devices. The app also allows its users to switch from plastic card to a Mploid where you can create a verified profile like your resume.

⇒ **Responsibilities**

- Involved in Design, Development and Deployment processes.
- **Responsive Web design (RWD)** approach focused at crafting sites to provide an optimal viewing experience
- Adapting to the user's needs and device capabilities by implementing **Responsive web Design**.
- Integrating **REST API Services** which aligns with Angular.
- Expert level knowledge on Angular along with setting up frontend build systems and automating the same using **Angular CLI** similar build systems.
- Played key role in development of Search Functionality using Object oriented JavaScript & Bootstrap.

- ➔ Adhere and contribute to Massive Engineering procedures, code conventions, **open- source initiatives** and **best practice**
- ➔ Integrated Charts with **JSON**.
- ➔ Mobile Based resolution has achieved.
- ➔ Develop and enforce Unit tests, Accessibility guidelines & Web standards for the product.
- ➔ Integrated google fabrics to track the real time Bugs and Application crash reports.
- ➔ Implemented google analytics in app to monitor the traffic on the application.
- ➔ Plays a key role in achieve complex use cases and implementations.
