WORK EXPERIENCE

Senior Software Engineer
Nitor (SIAI - Predictive Portal, POFG)

09/2022 - Present   *Pune, India*

Achievements/Tasks

- Integrated Angular and Python for a robust manufacturing plant portal.
- Implemented real-time monitoring features for enhanced issue identification and resolution.
- Optimized codebase and introduced efficient error-handling mechanisms to enhance system reliability and received positive user feedback for UI improvements.
- Successfully integrated Angular, Node.js, Express, and MongoDB to create the Datastak platform, enhancing geological analysis with features like access to formation tops, cross-sections, and well log downloads.

Software Engineer
CT Info Pvt Ltd (CirclesNow)

01/2021 - 08/2022   *Pune,India*

Achievements/Tasks

- Directed development for CirclesNow, aligning features with the platform's vision and user needs.
- Collaborated with a diverse team to integrate Angular and Ionic 2 seamlessly.
- Implemented key functionalities (video player, spreaker player, InApp-purchase, subscription models) for an enhanced user experience, conducting thorough testing for stability.

Software Developer
Redelve International Publications (DealnDone)

02/2019 - 10/2019   *Hyderabad,India*

Achievements/Tasks

- Spearheaded end-to-end development of Dealndone, ensuring timely delivery and high-quality standards.
- Collaborated with cross-functional teams to design and implement retail-specific features.
- Developed and maintained a user-friendly admin panel, integrating crucial functionalities like barcode scanning and invoice bill printing for PoS efficiency.

Software Developer
Softians Technologies (HoodyCam)

07/2017 - 06/2017   *Pune,India*

Achievements/Tasks

- Played a key role in the end-to-end development of HoodyCam, ensuring the implementation of features aligned with the platform's goals.
- Collaborated closely with cross-functional teams to design and implement intuitive functionalities catering to camera enthusiasts and professional photographers.
- Developed and maintained core features, including the booking system for cameras and professional photographers.
- Integrated push notification capabilities, enhancing real-time communication between users and the application.

SKILLS

HTML CSS SCSS Javascript Angular 14
Ionic Cordova Nodejs MySQL MongoDB
Angular Material Figma JIRA XCode
Android studio Git Bitbucket Rxjs
RESTful API Integration Armcharts
Hybrid Mobile Application MEAN stack

PERSONAL PROJECTS

Whose Ride It Is Anyway
- Developed a cross-platform mobile application using Ionic and Angular, enabling users to search, navigate, and upload photos of laid down or unknown vehicles, with a feature to pinpoint the vehicle's location based on uploaded images.

EDUCATION

Master of Science (Computer science with Scientific Computing)
Interdisciplinary school of scientific computing, Pune University.

07/2015 - 06/2017   *Pune, India*
