	<ul style="list-style-type: none"> ✓ After Code and Data base migration oracle 10g to 19c fix the issue code side Web API , and database side i.e. SELECT SQL ,Stored procedure ,Function , Sql Performance issue fixing. ✓ Participated in code reviews, bug tracking, and resolution processes to deliver high-quality code within project timelines. ✓ Data Analysis ,SQL Scripting ✓ Reports. ✓ Coding and Prepare Unit Tests. 		
Software	Languages	VB.Net, .Net Core3.1 Web API , C# , PL/SQL	
	Database	ORACLE 19c	
	Tools and Utilities	Migration Visual studio 2010 to VS 2019 , Oracle 10g to 19c migration ,GIT , MS Azur DevOps, CI/CD	
Role Played	Sr. Software Developer		
Duration	03-10-2022 to till date	Team Size	6

Project #2	Invoice Management System (Web Application)		
Client	Invoice Management System		
Project Description Spruce India Pvt Ltd.	<p>This is the new developed web application this project is huge compare to time period and we deliver the best in such small time span we got the appreciation from the client.</p> <p>About the project this solution for finance department of well know MNC it keep track of its customers, Purchase order (PO), Statement of Work (SOW), Invoices and services they have opted for. The system shall facilitate invoice generation based on the chosen services and chosen billing.</p> <p>My responsibilities include:</p> <ul style="list-style-type: none"> ✓ ASP.net Web forms Design. ✓ Creating Database architecture and SQL Scripting. ✓ Reports. ✓ Coding and Prepare Unit Tests. 		
Software	Languages	ASP.NET, C# ,SQL, Java script , jQuery	
	Database	SQL Server2012	
	Tools and Utilities	Visual studio 2019 , GIT , MS Azur DevOps ,	
Role Played	Sr. Software Developer		
Duration	25-11-2021 to 01-06-2022	Team Size	6

Project #3	HSK ERP (Design Pattern –3Tier) (Windows Application)		
Client	Hayashi Seiko Co.Ltd (HSK Japan)		
Project Description Think Smart IT Solutions Pvt. Ltd.	<p>MMS (Material Management System):- This is the new developed Windows application and is very huge MMS. It's one of the ERP project models that we have successfully delivered for steal manufacturer. I worked as developer and was a member of a core team for this project.</p> <p>Materials Management software is to help manufacturers keep track of the parts that make up a specific product and to be advised ahead of time when parts need to be re-ordered. In other words, MMS is developed to help manufacturing businesses assess the materials required, the amount of materials required, and when exactly they are required. MMS deals with inventory from beginning to end, providing inventory visibility throughout the processes of inbound, receiving, order processing, storage, shipping, and billing.</p> <p>Its key functionality:</p> <ul style="list-style-type: none"> • To provide inbound, in-terminal, and outbound visibility to inventory at the management level. • To give headquarters a terminal view of product on hand or in-transit. • To handle bulk and break products. • To track inventory levels -and bin or bay location. • To centralize rate and customer information and to scale interface for accurate billing and inventory. <p>PMS (Process Management system):- PMS produces an optional solution for important manufacturing processes, based on user-defined objective. It helps in removal of paper based system and manual errors. Provides analysis of the historical data is helps in Efficiency improvement in process execution. It also helps in improve communication between departments, internal and external organization. It also generates daily routine reports.</p> <p>My responsibilities include:</p> <ul style="list-style-type: none"> ✓ On site client support ✓ Data Analysis ,SQL Scripting ,PL/SQL query optimization ✓ Win Forms Design. ✓ Reports. ✓ ERP integration ✓ Bug Fixing, Coding and Prepare Unit Tests. 		
Software	Languages	VB.NET , PL/SQL ,.Net Framework	
	Database	ORACLE 11GR2	
	Tools and Utilities	Visual studio 2010,Input man for dot net, Spread Gird for dot net, Active Reports, TrueWinChart for dot net , Oracle 11g R2 , Repository Design Pattern , Singleton Design Pattern	
Role Played	Sr. Software Developer (Support and Developer)		
Duration	1 May 2012 to 30 July 2021	Team Size	3

Project #4	HSK ERP (Design Pattern – MVC) Web Application	
Client	Hayashi Seiko Co.Ltd (HSK Japan)
