Objective: Seeking a position in programming field whereby my academic background, programming and analytical skills may be utilized and developed.

Work Experience

- Working as a Salesforce freelancer from last 8 months.
- Salesforce Certified Administrator, Platform Developer I, 1X Trailhead Ranger.
- **Trailhead Profile:** <https://trailblazer.me/id/ragrawal42>
- Experience in software development on the Salesforce.com platform
- Experience in SFDC administration, configuration and development.
- Took initiative to learn Lightning through trailhead and developed components for POC purpose.
- Shared the Salesforce experience at college level by conducting sessions and hands-on workshops.

Skills

- Proficient in developing triggers, apex classes , lightning components and visualforce pages, Salesforce configuration including workflows, Process builders, email templates etc.
- Salesforce Communities.
- Tools: VS Code
- Language: JavaScript, HTML, CSS, Apex

Projects

Classic to Lightning Migration

Sept'19

- Gathered requirements by executing Lightning ready test.
- Converted Javascript buttons to Lightning Component and used as Quick Actions.
- Converted Visualforce Pages to Lightning Component.
- Implemented various Lightning components, Events and Apex Classes.
- Used Lightning App Builder to make Record and App Pages and used the components according to requirement.
- Tested and demonstrated the project internally.

Student Feedback Portal

Apr'20

- Created a Salesforce community portal.
- In the portal the college students are portal users, they can login and provide feedback to teacher and college.
- Admin can also review the college and teachers performance from reports and dashboard.
- Teacher will get notification of his performance from OOTB salesforce email alert.
