## Summary

I am a Senior UI UX (User Interface & User Experience Designer) and Front-end Designer, with a proven track record of directing and designing high profile, industry-leading, innovative desktop and mobile applications. My focus and competencies include a design-driven direction, user interface design, user experience design, visual design, iOS design, android app design, web design, graphic design, and animation. I have a vast experience with client and business connections, along with project management, leadership, and business strategy planning as well as consulting.

## Senior UX UI Designer, and Front-end Designer

[LaundryDate](#), [LaundryDate.com \(Under Development\)](#)

Dec 2020 - Present

Jersey City, NJ

Lead the design aspect of the entire enterprise business for IOS, Android, & Web

Portfolio: [LINK](#) (Under Development) / (Not Complete Yet)

- Working in an agile environment on multiple, simultaneous desktop and mobile iOS & Android components, designing features and common experiences, defining new patterns and paradigms, along with the making of UI components and assets.
- Low-fidelity to high-fidelity mockup of Udesign. Giving solutions to application flow and wireframing prototypes. Leading discovery sessions with users and stakeholders to define features and interaction, leading to high-fidelity mockups for the design and product development teams.
- Thorough User Experience Research & Implementation on Application Structure for seamless flow.
- Engaging and collaborating with product owners, managers, and development leads to solve complex user and business goals, while empowering excellent, high-quality visual designs, concept models, process flows, sketches and wireframes.

## Senior UX UI Designer, and Front-end Designer

Jersey City, NJ

Made the design efforts and execution of the next generation, web-based, management Portfolio:

Portfolio: [IOS LINK](#) - [ANDROID LINK](#)

- Drove and designed low-fidelity mockups, while developing core user experience guidelines, directing and executing the interactive design and collaborating with internal and off-shore front and back-end development teams and business analysts.
- Translated complex app function API requirements into intuitive user-centered experiences and high fidelity prototypes. In addition, I designed the user interface assets, tools, widgets and components throughout entire application, while maintaining a comprehensive UI style guide.
- Produced wireframes, HTML codes, & CSS that contributed to user-centered design (UCD) efforts for web pages.
