- Involved in handling site's data and maintaining the same.
- Impart training to new team member of project.
- Status reporting, project tracking and reporting.

CURRICULUM PROJECT

Vehicle Accident Prevention Using Alcohol Sensor

- Type: Final Year Project.

- Language: VB.Net, My SQL.

- Description: The main objective of this project is to develop a smart vehicle for reducing the frequency of accidents caused due to drink and drive. It will help as a social cause. As such, there is no effective mechanism to prevent this. Here we have designed an integrated system for same purpose. Alcohol content in the driver's body detected by mean of Alcohol Sensor. Alcohol sensor detects alcohol content through the driver's breath. Thus, the alcohol level of Driver is continuously monitored and calibrated on a scale. When it exceeds a particular limit, the buzzer will ring, and device is removed and at the same time warning messages will be fired to server. A SMS which contains the current GPS location of vehicle is sent via a GSM module to the police control room as well as server. The system is fool proof, and the drivers cannot tamper with it easily. Thus, it provides an efficient and cost-effective solution for the problem of drink & drive.

- Team Size: 4

- Role: Software Developer, Software Tester

Company Name	Coverage	Dates
Kiya.ai (InfraSoft Technologies)	UI / Frontend Developer Using Angular 14, JavaScript, HTML, CSS3, bootstrap, Ag-grid, Angular Data table, Chart.JS, Visual-Studio, Git Lab, Docker, Production Line Jenkins etc	July 2022 to till Now
CAPGEMINI TECHNOLOGY SERVICES	Frontend Developer Using Angular 9, JavaScript, HTML, CSS3, Karma testcase, Visual Studio, Production Line Jenkins, Git Lab, Rally, Docker etc	Nov 2020 to Jun 2022
Tata Consultancy Services	Frontend Developer Using AngularJS, JavaScript, HTML, CSS, Postman, Cordova Plugins, Android Studio, etc	Oct 2018 to May 2019
Mytrux Infotech Pvt. Ltd	Frontend Developer using Angular 5, HERE Map, JavaScript, HTML5,CSS3 etc.	Mar 2018 to JUN 2018
Buzzle Software Solution	UI designing using Angular 2, JavaScript, HTML, CSS, etc.	Mar 2016 to Mar 2018

EDUCATION

Degree	Institute	Board/University	Year	% Marks
B.E (Computer Engineering)	Matoshri College of Engg. & Research Centre, Nasik	Pune University	2013-2014	62.06 %

BEYOND CURRICULUM

- National level Paper presentation in various Colleges.
- Project Demonstrations in various Colleges.
