Address: Vihana 302 B, Keshavnagar, Mundhwa, 411036, Pune, India (Home)

About me:

I am an enthusiastic, self-motivated, responsible and hard working person. I am a mature team worker and adaptable to all challenging situations. I am able to work well both in a team environment as well as using own initiative. I am able to work well under pressure and adhere to strict deadlines.

● WORK EXPERIENCE

2 MAR 2020 – CURRENT Pune, India

SFDC TECH LEAD ARESS SOFTWARE AND EDUCATION TECHNOLOGIES

Client: AppExchange product owner based in UK

Project Overview: Apps developed for Salesforce classic, mobile & lightning modes

Roles:

Development:

1. Have done complete migration of Aura components into LWC.
2. Have done development of both Aura & LWC lightning components from scratch.
3. Implemented Platform event to communicate Aura & LWC components.
4. Implemented messaging channel in LWC to fire Application & Component events.
5. Did Integration of Salesforce with AccuWeather website to bring weather forecast information into Salesforce for locations.
6. Worked with Apex Data Loader, Import Wizard for data migration and data management in bulk.
7. Strong background in successful application of object-oriented design principles and methodologies like UML and Design Patterns.
8. Updating data of Parent & Child using Wrapper classes and Batch classes to manage governor limits & performance improvements.
9. Experience in enabling LWC and extensive experience in Salesforce configuration and customization.
10. Used Schema Builder, Flows and Process Builder.
11. Experience on tools like VS code, Data Loader, Work bench, Dataloder.io and Eclipse.
12. Deployment experience using Change sets and Force.com IDE as well as hands on Sandbox management experience.
13. Experience in aura framework, LWC and Salesforce Lightning Design System (SLDS).
14. Develop LWC, CSS Styling and UI Design to enhance the look and feel of the Lightning apps and Leveraged Server-side apex controllers to retrieve data from various API's and display on the Lightning Components.
15. Responsible for doing Security review of apps.

SFDC TECH LEAD

Client: Courier company

Project Overview: Salesforce Field Service Lightning implementation & Esri integration with Salesforce for high quality digital charts.

Roles:

Development:

1. Implemented Salesforce FSL for the customer.
2. Customized the existing FSL objects to meet the customer requirements.
3. Integrated Salesforce with ESRI JS library.

4. Implemented a combination of Aura, LWC & Visualforce to bring ESRI chart in Salesforce.
5. Developed the logic for applying filters on the ESRI maps & performing corresponding actions in Salesforce.
6. Wrote various custom logics with the help of Flows & Apex to meet the various customer needs.
7. Used Data loader to do bulk data load for testing purposes.
8. Did direct interaction with customers to gather the requirements & plan the development and deployment timelines.
9. Used Trello for keeping track of daily tasks & interacting with customers.
10. Wrote user stories & worked on designing solutions for those.
11. Delegated tasks to team members & made sure they get whatever they need to complete them.
12. Mentored, motivated & solved queries of Junior developers.
13. Worked with QA team to make sure our solution meets the quality standard defined by the parties involved.

21 AUG 2017 – 24 FEB 2020 Pune, India

SYSTEM ENGINEER TATA CONSULTANCY SERVICES LTD

Client: Regional Bank based in North America

Project Overview: Salesforce Sales Cloud Implementation with NCINO managed package for the credit functionalities

Roles:

Development:

1. Have good understanding of Apex Classes, Apex Triggers, Batch and Schedulable Classes, Test Classes and Visualforce Pages.
2. Created visual flows, workflow rules, Validation rules, configuration and defined related tasks, time-triggered tasks, email alerts and field updates to implement business logic.
3. Used SOSL and SOQL queries during the data migration and custom development.
4. Used refined global search in Lightning by developing Apex classes and Controllers.
5. Hands on experience in developing custom lighting components including custom UI and Grids.
6. Implemented Salesforce Development Cycle covering Sales Cloud, Service Cloud, Chatter & App exchange applications.
7. Involved in writing test scripts for the encryption and decryption logic and interacting with the testing team to help them with Integration and UAT testing. Used Agile Methodology.
8. I have worked on LWC & Aura components.
9. Have an in-depth understanding of the SFDC Configuration concepts like Automation using workflows and process builders, validation rules, security concepts, custom settings and metadata

Data Load:

1. Have good understanding of Apex Data Loader and mapping files.
2. Was involved in a data migration project
3. Worked in automating data loader using CLI which substantially reduced time and manual efforts.

Deployment:

1. Aware of the process of deployment using Change Sets
2. Aware of deploying package.xml using ANT
3. Currently working on the Copado tool for Continuous Integration and Continuous Deployment

ADDITIONAL INFORMATION

KEY ACHIEVEMENTS

Key Achievements
