EXPERIENCE

Accenture

Hadoop Developer (Walmart Team)

📅 Jul 2020 – Present   📍 Hyderabad, Telangana, India

- **Description**: This is an end to end application between Hadoop Data-lake and Azure Data Studio. The data is collected from Hadoop Data-lake for creating jobs and workflows according to the client requirements and transfer to Azure Data Studio.
- **Responsibilities**:
- Created data pipelines, jobs and workflows in Automic.
- Created new hive tables based on the client requirements.
- Transferred the data from Hadoop data lake to the Azure Data Studio via jobs and workflows.
- Responsible for scheduling new jobs by checking the data and loading into upstream tables.
- Configuring the reports in Azure Data Studio according to client reports.
- Responsible for generation of reports from Hadoop Data Lake.

Spark Developer (Walmart team)

📅 Dec 2017 — Jun 2020   📍 Hyderabad, Telangana, India

- **Description**: An end to end application with Hadoop and SPARK as middle ware platform to Accounting hub and vendors. Data is collected from the various sources in multiple formats and processed into single standardized way for delivering it to HUB for Analysis
- **Responsibilities**:
- Configured jobs by collecting binary and nonbinary files from different sources and store them in S3.
- Managed all jobs through Oozie and setting frequencies depending on client requirements.
- Implemented different frameworks for data ingestion from S3 to Raw layer, implemented transformations to load, control and build the data for providing user-benefit reports.
- Implemented Spark using Scala, utilizing Spark core and Spark sql for faster processing.
- Developed Spark scripts by using Scala shell commands.
- Used spark-sql to load data, create data frames, load it into hive tables and handle the structured data using spark-sql
- Analysed data further using Hive and involved in development and Written various test cases for Testing using Hive/Impala scripts.

TRAININGS & OTHER SKILLS

- Currently undergoing training for Azure - 204 associate developer.
- Have sound exposure on Retail Market.
- Excellent technical, analytical, problem-solving and communication skills.
- Possess good inter personal skills. Goal oriented and always interested to learn new things and critical technologies.

EDUCATION

Post Gradution Diploma in Software Development - Big Data

IIIT - Bangalore

📅 Mar 2021 - Mar 2022   📍 Bangalore, India

B. Tech in Electrical and Electronics Engineering

JNTU Kakinada

📅 Aug 2013 - Jun 2017   📍 Kakinada, India

- **Percentage**: 70

Board of Intermediate Education Andhra Pradesh

Sasi Junior College

📅 Jun 2011 - Apr 2013   📍 Velivenu, India

- **Percentage**: 96.6

Secondary School Certificate Andhra Pradesh

Roots School

📅 Apr 2011   📍 Tanuku, India

- **Percentage**: 94.1

PROGRAMMING SKILLS

HiveQL   SQL   Python   Core Java

TECHNICAL SKILLS

HDFS   Hive   Oozie   Spark Architecture   Scala   Sqoop   Automic   Azure Data Studio
