SKILLS

HTML   CSS   JavaScript   C-Sharp

Bootstrap   jQuery   Node.js   React.js   SQL

Python   Java   VisualStudio   DBMS

PERSONAL PROJECTS

Water Level Indicator
- The working principle of a water level indicator is actually quite simple. It works by using sensor probes to indicate water level in a storage tank.These probes send information to the control panel to trigger an alarm.

Personal Website
- Used HTML ,CSS and JavaScript to create a dynamic website where I can publish my personal information and furthermore to add more modifications.

Drum Kit
- Used HTML , CSS , advanced JavaScript and DOM model. Additionally added sound, animation , and event listener to make an interactive drum kit.

Dual Axis Solar Tracker System
- This system requires involvement if wide range engineering including mechanical ,electrical and electronics.Every part of engineering would involve designing a smooth gear system,working of solar panel and designing the sensor system.
