## Software Engineer

**Results-driven** software engineer with a strong focus on **Salesforce component development** and a proven track record of delivering high-quality solutions. With over **3 years of experience** in the industry, I possess a deep understanding of the Salesforce platform and its capabilities.

Throughout my career, I have successfully designed, developed, and deployed scalable and efficient software components for Salesforce. My expertise lies in leveraging **Apex, Visualforce, Lightning Web Components, Trigger** and other Salesforce technologies to create custom solutions that meet unique business requirements. I am skilled in writing **clean, maintainable code** and have a **strong understanding** of software engineering best practices.

**Collaboration** and **problem-solving** are at the heart of my approach. I have a strong **cross-functional background**, enabling me to work closely with stakeholders, business analysts, and project managers to translate business needs into **technical requirements**. By effectively analysing and **understanding complex systems**, I have consistently delivered robust solutions that align with organizational goals.

## EXPERIENCE

**Software Engineer** – iLink Digital  
Pune / Sep 2021 – Present

- Accomplished software engineer with expertise in Salesforce component development, specializing in creating scalable and efficient solutions.
- Developed and implemented custom Salesforce components using Apex, Visualforce, Lightning Web Components, and other Salesforce technologies.
- Collaborated closely with stakeholders, business analysts, and project managers to understand business requirements and translate them into technical solutions.
- Conducted thorough code reviews and performed comprehensive testing to ensure high-quality deliverables that meet client expectations.
- Demonstrated proficiency in troubleshooting and resolving issues, providing technical support, and optimizing performance for Salesforce components.
- Contributed to the continuous improvement of development processes, tools, and best practices to enhance productivity and efficiency.
- Actively participated in team meetings, brainstorming sessions, and knowledge sharing activities to foster a collaborative and innovative environment.
- Maintained up-to-date knowledge of Salesforce updates, new features, and industry trends to provide recommendations for enhancing system functionality.
- Worked closely with clients to understand their unique business needs, provide technical guidance, and deliver tailored Salesforce solutions that drive business success.

RMD Sinhgad College, Pune  
2019

## SKILLS

- Leadership & Teamwork
- Transparency & Flexibility
- Problem-Solving & Analytical Thinking
- Communication & Collaboration
- Adaptability & Detailing
- Time Management & Organization
- Quality Assurance & Testing
- Problem Diagnosis & Troubleshooting
- Continuous Learning

## Project: PowerFlex

- Demonstrated expertise in a diverse range of skill sets, including Lightning Web Components (LWC), Aura Components, Apex Classes, Triggers, Test Classes, Admin tasks.
- Actively pursued continuous learning and skill development, effectively applying newly acquired knowledge to daily tasks, resulting in enhanced efficiency and increased productivity.
- Collaborated seamlessly with cross-functional team members, leveraging collective strengths to achieve targeted project outcomes and deliver exceptional results.
- Thrived in high-pressure, fast-paced environments, consistently meeting challenging deadlines while maintaining a focus on quality and attention to detail.
- Fostered strong customer relationships by actively engaging with clients, gaining a deep understanding of their unique requirements, and delivering solutions that exceeded expectations.
- Developed comprehensive project plans, ensuring clear communication of deliverables, milestones, and deadlines to all stakeholders, effectively managing project timelines for successful completion.
- Drove operational improvements through a steadfast commitment to hard work and dedication, implementing streamlined processes and contributing to overall organizational efficiency.
- Prepared a wide range of professional written communications, reports, and documents, ensuring accuracy, clarity, and adherence to established standards.
- Facilitated effective team communication by developing informative and engaging materials for meetings, enabling collaborative decision-making and fostering a cohesive working environment.

## Junior Developer — Cyberscript IT Solutions Pvt Ltd

Pune / Apr 2020 – Sep 2021

- Contributed to web and software development projects as a Junior Developer.
- Collaborated with a team of developers to design, code, and implement responsive and user-friendly websites and applications.
- Assisted in the development and maintenance of web-based applications using technologies such as HTML, CSS, JavaScript, LWC, apex classes, Test classes and admin tasks.
- Participated in all phases of the software development life cycle (SDLC), including requirements gathering, design, coding, testing, and deployment.
- Conducted thorough testing and debugging to identify and resolve issues, ensuring high-quality and error-free deliverables.
- Worked closely with senior developers and project managers to understand project requirements and deliver solutions that meet client expectations.
- Demonstrated a willingness to learn and adapt to new technologies, frameworks, and programming languages to enhance skills and stay updated with industry trends.
- Actively participated in code reviews, providing constructive feedback and suggestions to improve code quality and maintainability.
- Adhered to project timelines and effectively managed assigned tasks, demonstrating strong time management and organizational skills.
- Maintained open communication with clients, addressing their concerns and providing updates on project progress.
- Consistently demonstrated a proactive and enthusiastic approach to problem-solving
