<b>Mark UP Language's /</b>	➤ HTML, CSS and JavaScript
<b>WEB Technologies</b>	
<b>Operating Systems</b>	➤ Unix (Linux), Windows XP/7/8/10
<b>Tools</b>	➤ JIRA, Oracle Data Integrator, Tortoise SVN, RegexBuddy, Adobe Dreamweaver.

**RELAVENT PROJECT EXPERIENCE****Organization - Cognizant Technology Solutions India Pvt Ltd., Hyderabad****Project #1**

Domain	CommsMedia
Role	Application Developer
Client	Kantar
Tools& Technology	Java 1.7, Oracle SQL, PL/SQL, Oracle Database 10g, 12c, Unix/Linux Shell scripting, HTML, CSS, apache-ant-1.9.13, RegexBuddy, SQL Developer, Toad, ODI.
Team Name	Marx IT
Team Size	4
Period	Jan 2017 – till date

## Project Abstract:

*Marx is the consumer promotions business unit of Kantar Media which tracks Print (Newspaper Free Standing Inserts (FSI), Magazine, Sunday Magazine, Direct Mail, Solo Insert) and Digital (Website and Mobile) promotions. Marx applications uses the promotion data to generate insights for their customers (brands/advertisers) and help them understand the impact of the promotion. The insights provided by the Marx applications help brands in making informed decisions on all aspects of media measurement, monitoring and selection and gives a view on the competitors share of voice in the market. It also helps brands in understanding the retailer alignment and promotions adopted by competitors (print, web, mobile or combination) for new product introduction in the market.*

## Roles and Responsibilities:

- Involved in continuous enhancements and fixing of production problems.
- Doing a Root Cause Analysis and prepared several scripts and documentation for recurring issues.
- Analysis of the PL/SQL blocks for further enhancements and bug fixes.
- Developed and modified Database Objects like tables, Views, sequences, Procedures, functions, Packages, Cursors, Ref Cursor and Triggers as per the Business requirements.
- Worked on the complex sql queries and performance tunings to meet the business requirements.
- Analysis of various modules in Java based desktop application and added new functionalities to the existing modules.
- Involved in analysis, bug fixing, troubleshooting incidents in java application, code review, debugging errors to improve performance and testing
- Worked on building and deploying of the several java enhancements to production and lower environments by using the apache-ant-1.9.13.
- Good hands-on experience with scripting language such as Unix and Linux.
- Understanding of Oracle Data Integrator tool and inline components of it. Understanding of scheduling jobs, debugging logs in ODI.
- Involved in creating the jobs, monitoring and scheduling jobs in OEM portal.
- Automated few regular task for Operations which reduced regular work request tickets being created for IT team.
- Solely handled a data collection system which is responsible for contributing around 95% of data flowing to the system. Involved in maintaining, enhancements and troubleshooting issues related to the data collection system.
- Have learnt client's applications in a very quick phase and involved in preparing the functional and technical KT documents for most the modules in application and provided innovative ideas for continuous process improvement for incident reduction.
- Knowledge Transfer to new resources and made them productive within short time

## Project #2

Worked for 4 months Aug-16 to Dec-16 in HMH PMO on Content Management in SharePoint.
