EDUCATION

Year of Completion	Degree/ Certificate	Institution/Board	CGPA/Percentage
2016	Bachelor of Technology	St. Thomas college of Engineering and technology, Kolkata, W.B.U.T.	8.2
2011	XII	National High School, Kolkata, HSC	60
2009	X	St. Anthony's High School, Kolkata, SSC	70

SKILLS

Programming Skills: RPG, RPGLE, CL, CLLE, ILERPG, SQLRPGLE, DB2, SQL

Databases: DB2, MySQL

Tools: Aldon Change Management System (ACMS), JIRA, Rally, X-analysis, Profound UI, RDI, Surveyor, SoapUI, Service Now, ITSM.

PROFESSIONAL EXPERIENCE

Organization	Tenure
Nagarro Software Pvt Ltd	Feb 2021 – Current
Cognizant Technology Solutions Pvt Ltd	July 2016 – Jan 2021

PROJECTS

Project Name	Global payments and Refunds.
Period	Feb 2021– Present
Role	Software Development Engineer
Tasks performed	- Worked on AS400 (RPGLE/DB2) side of the API for processing transactions. - Worked on logic to implement a transaction through credit/Debit card and process refunds for the same - Worked on creating utilities that helped reduce the effort for report generation and downloading. - Creating new programs, service programs, modules and modifying existing based on the requirement. - Worked on product enhancement and client requirements for display as well as business logic. - QA support for all the technical queries. - Fixing defects logged in the defect management tool.
Languages	RPGLE, CLLE, SQL

Project Name	Killick project
Period	April 2020-November 2020
Role	Software Development Engineer
Tasks performed	- Involved in the development of program for different claims types - Written code as per quality standard specifications - Implemented a logic to find out duplicate claims and remove them from the current transaction and populate the same in error file. - Involved in requirement discussion with client in weekly meetings
Languages	CL, SQLRPGLE, RPGLE, SQL/400

Project Name	iSeries Web Client
Period	Oct 2019-March 2020
Role	Software Development Engineer
Tasks performed	- Analysis of the Functional Specification provided by Business Analyst - Written code as per quality and standard specification - Implemented XML – INTO opcode to parse XML data into respective Data Structures - Created Service Programs to perform user-based operations. Implemented IFS using IFS API(s) commands
Languages	ILERPG, SQLRPGLE, CL, RPG/400, SQL/400, XML, IFS(API)

Project Name	Silverton
Period	Jan 2019 – Sep 2019
Role	Software Development Engineer
Tasks performed	- Analysis of the Functional Specification provided by Business Analyst - Written code as per quality and standard specification - Created Service Programs to acquire those Silverton policies as per the business requirement. - Used SoapUI to send the XML response that we generated.
Languages	ILERPG, SQLRPGLE, CL, RPG/400, SQL/400, XML, IFS(API), SoapUI

Project Name	Letter Changes
Period	Mar 2018 – Dec 2018
Role	Software Development Engineer
Tasks performed	- Analysis of the Functional Specification provided by Business Analyst - Written code as per quality and standard specification - Created RPG, RPGLE programs which would incorporate newly added business logics. - Modified existing Printer files. - Modified the Existing RPG, RPGLE, CL programs in order to incorporate new changes and remove the old business scenarios without impacting the process flow.
Languages	RPGLE, CLLE, SQL

Project Name	Defect analysis and Enhancement
Period	Jul 2016 – Dec 2018
Role	Software Development Engineer
Tasks performed	- Analysis of the code which caused the defect. - Replicating the issue on the test environment. - Debugging the code in order to analyze the root cause of the defect - Implemented permanent fix after discussion with Onshore team member - Modified the Existing RPG, RPGLE,CL.
Languages	RPGLE, CLLE, SQL

AWARDS AND ACHIEVEMENTS

Received a Certificate of "High Performance" from client for a challenging delivery.

PERSONAL INFORMATION

Date of Birth : 25th January 1993
