Salesforce Certified Platform App Builder

VOLUNTEER WORK

Rendered voluntary service held by

ROKO CANCER CHARITABLE TRUST

EXPERIENCE

Accenture Private Limited
Associate software developer

• Working in a Salesforce Development Project and key roles include handling apex classes, test classes, working in Lightning experience, task and bug handling.
• Trained in agile methodologies and know how to implement them. Since my project also follows Agile, thus making the experience more useful to implement good agile practices.
• Worked on VS Code and Workbench for retrieving changes from org and pushing them to git repos through branches.
• Used developer console to check the code coverage, run SOQL queries, retrieve data, debug issues etc.
• Took part in major agile releases and quarter releases and completed all tasks within timeframe and with minimum bugs.
• Recognized twice in the project for sincerity and punctuality.
