EDUCATION

Bachelor of Technology

VIT University Vellore (17BCE2309)

06/2017 - Present

8.0

Higher Secondary

DAV BOYS Senior Secondary School(CBSE), Chennai

07/2015 - 07/2017

83%

High School

DAV BOYS Senior Secondary School(CBSE), Chennai

06/2014 - 06/2015

9.2

WORK EXPERIENCE

Technical Intern

Indian Servers

06/2019 - 06/2019

Worked on Stock Price prediction Model developed Using RNN which could predicting stock market returns. Done as part of team my part involved preprocessing of stock dataset using numpy

Machine Learning Analyst

Styloria

08/2020 - Present

As part of team working on Online Fashion Recommendation System which could suggest a perfect outfit for any person based on his/her interest

Contact: styloria.in

Content Writer

OneYes Technologies

09/2020 - Present

Working as Research and Content writer at One yes Technologies

SKILLS

C++

Java

Data Structures and Algorithms

Jenkins(Basics)

DBMS

NodeJs

Machine Learning(Conceptual Knowledge)

Git

Numpy

Ansible

PERSONAL PROJECTS

Knight's Tour

- A simple game where we had to find the minimum path from the source vertex to given target. Assuming this as graph data structure where each move can be represented as edge and Breadth first search has been used to find the shortest path.

HarryPotter Cloak

- Using opencv and numpy designed a project which could make an object displayed in a particular frame invisible.

Continuous Machine Learning to run ML pipeline for simple Movie recommendation system

- CML used to run the ML pipeline and was able to observe outcome of pipeline without leaving the git on making code commit. The ML pipeline was divided into 8 steps from Data Collection to training of model.

RESEARCH WORK

Darxo - An Android Game published on Google Playstore (09/2019 - 04/2020)

As team built and Developed an Android Game based on concept of treasure hunt . Received Rave reviews for Game .The link for the game is <https://play.google.com/store/apps/details?id=com.TheOmegaWolfCorp.Darxo&hl=en&gl=US>
