#### **Roles & Responsibilities:**

- Involved in Analysis, Design, Development, Testing and Implementation.
- Followed best practices recommend by Blue Prism.
- Responsible for designing the RPA solution Design.
- Handle the UAT process and Production support as Hyper care.

Client	Process Name	Team Size	Role
Vestas	IMS-Data Analysis	1	Developer

#### **Project 2:** Vestas– QSE Performance Management

**Description:** Vestas is the energy industry's global partner, and it involves design, manufacture, install and service wind turbines across the globe and with 105 GW of wind turbines in 80 countries and here QSE is the department which we automate their workflow process.

#### **Roles & Responsibilities:**

- Involved in Analysis, Design, Development, Testing and Implementation.
- Followed best practices recommend by Blue Prism.
- Responsible for designing the RPA solution Design.
- Handle the UAT process and Hyper care production support.

Client	Process Name	Team Size	Role
Statestreet	NAM & EMEA Reconciliation process	3	Developer

#### **Project 3:** Derivatives – NAM & EMEA Reconciliation Process

**Description:** State Street Corporation is an American financial services and bank holding company headquartered at One Lincoln Street in Boston with operations worldwide. It is the second-oldest continually operating United States bank; HCL is partner with State street Corporation and doing their least part of daily process as automation by implementing RPA solution

#### **Roles & Responsibilities:**

- Involved in Analysis, Design, Development, Testing and Implementation.

- Followed best practices recommend by Blue Prism.
- Handle the UAT process and Hyper care production support.
- Responsible for designing the RPA solution Design.

#### **Dotnet Projects**

##### **Tools and Environment:**

- Front End: ASP.NET, C#.NET, VBA
- Back End: SQL Server 2012
- Reporting Tool: SQL Server Reporting Services

**Role:** As a Systems Engineer, responsible for

- Understanding of requirements, Functional Specification documents (FSD)
- Support and handle the customization development team for their work.

Client	Project Name	Team Size	Role
INDIA GEO	Adrenalin HRMS	4	Customization Developer
Grundfos	Sales portal, Business dashboard, Key process indicators dashboard, Grundfos Solution Providing Center, Outlook Automation	2	Developer

##### **Project 1:** Human Resource Management System

**Description:** Adrenalin HRMS providing transformational digital HR solution to the organization. It is a kind of web application and has been worked in different modules like Leave, Attendance, MIS, Admin, Integration, HR Foundation.
