TECHNICAL SKILLS

➢ **Oracle Applications**: Oracle Applications R12.
➢ **Database**: Oracle 12c.
➢ **Modules:** PA, AR
➢ **Languages**: SQL, PL/SQL.
➢ **Oracle Tools**: SQL Developer, BI Publisher, Report Builder, Workflow Builder, SQL * Loader.
➢ **Other Tool**: MS - Office, WinSCP, Putty, JIRA, Bit Bucket.

LANGUAGES

➢ English
➢ Hindi

Project 3

Client	: **ICON plc**
Title	: Oracle Applications R12 Upgrade
Environment	: Oracle Applications R12
Duration	: Nov-20 to till date

Responsibilities:

As a Technical Team member, my responsibilities in the project included:

- ➢ Involved in Coding, and Testing throughout the project.
- ➢ Discussing with the users about the Changes requested, scope, possibilities and test scenarios and make the changes as requested.
- ➢ Resolving the issues which users are facing.
- ➢ Prioritize workload, providing timely and accurate resolutions.
- ➢ Preparation of Migration document **MD120**'s., Technical Specification **MD70**'s document from the user requirements.
- ➢ Discussing about the new objects and customizations requirement.
- ➢ Migrating **Oracle Discoverer Reports** to **Excel4Apps**. (**Report Wand module**).
- ➢ Developed **ICON AP Project Invoice Payment Status Report** provide the information related to the Project Invoices and details of Payment Status.

Project 2

Client	: **ICON plc**
Title	: **AR End to End**
Environment	: Oracle Applications R12
Duration	: Mar-20 to Nov-20

Responsibilities:

As a Technical Team member, my responsibilities in the project included:

- ➢ Worked on the development of interfaces, developing new Reports touching various modules such as **Project Accounting.**
- ➢ Extensively involved in **PLSQL, SQL** troubleshooting, debugging, and fixing the code and made the changes according to the new business requirements.
- ➢ Used **FNDLOAD** to migrate Concurrent Programs and Data Definitions in Various Instances.
- ➢ Documentation using AIM methodologies of **MD70**'s, **MD120**'s.
- ➢ Registered the **Concurrent Programs**, Reports, Profile options and value Sets in **AOL** and System Administration.
- ➢ Interacted with users (**i.e., ICON Office, Dublin**) and Fixed the bugs, developed test plans and provides daily user testing support.
- ➢ Developed **ICON Units Cumulative Billing Details Report** is developed to provide details of Budgeted and achieved units/amount for a given project and can be generated up to 12 months.
- ➢ Developed **ICON Missing Unit Tracker Details Report** to display the project details where the invoice is processed for a selected month and its associated status.

- ➢ Developed **ICON Generate Units Range of Billing Backup** to display invoice details for a project and the report should get saved under share path.
- ➢ **Project Key Members Maintenance Web ADI** will be used to create new key member assignment at the project and to end date existing key member role.
- ➢ **Reminder Notification for Entering Units Alert** (Alert Manager) In this process it will sends these notifications to the Project Manager to enter the units achieved for a month for the projects, which they are responsible for.

Project 1

Client	: **ICON plc**
Title	: **AR Enhancement**
Environment	: Oracle Applications R12
Duration	: Aug-19 to Feb-20

Responsibilities:

As a Technical Team member, my responsibilities in the project included:

- ➢ Developed **ICON Customer Invoice Email for Manual Edits** will allow the users to submit the request on demand at any time after the invoices have been saved to the manual edits folder, edited as needed and optionally provided with backup files.
