SUMMARY

A dynamic, multi skilled professional with proven results in delivering projects. Actively seeking a challenging role in a reputed organization where my skills & proficiency will be utilized.

EXPERIENCE

- ✚ Having 5 years of experience in IT Industry with Integration technology i.e., Dell Boomi
- ✚ Strong cloud integration experience in DellBoomi
- ✚ Proficient in developing integration process flow in DellBoomi
- ✚ Working experience in DellBoomi Connectors called Salesforce, Service Now, HTTP Client, Web Service SOAP client, SFTP, Mail, Web services server, Disk, FTP.
- ✚ Having knowledge in different data formats like XML, JSON, CSV and Flat File
- ✚ Experience with analysis, design, development and testing.
- ✚ Exposure to full life cycle of Integration Projects
- ✚ Having good knowledge on programming languages like Java, JavaScript, Groovy
- ✚ Knowledge in setting up DELL Boomi local Atoms
- ✚ Knowledge in EDI, MDM, Workato.

EDUCATION QUALIFICATION

- ✚ Graduation from Sri Muninarayana Degree College, Chitoor-2018.

WORKING EXPERIENCE:

- ✚ Previously Worked in **Genpact** since Sep 2022 to Jul 2024.
- ✚ Previously Worked with **Capgemini** from Jun 2019 to Sep 2022.

CERTIFICATIONS

- ✚ Associate Dell Boomi Developer Certification
- ✚ Dell Boomi Professional Developer Certification
- ✚ Dell Boomi Professional API Management

TECHNICAL SKILLS:

Languages	:	Core Basic Java Script
Database	:	Basic SQL
Integrations Tools	:	Dell Boomi
Operating Systems	:	Windows
Testing Tools	:	Postman, Soap UI

Project # 3:

Client : GE, Industrial Machinery Manufacturing, Boston.

Role : Boomi Integration Developer

Environment : Dell Boomi

Description:

A new era is here, and we want you to be a part of it. We will now be sharing our content on our respective GE Aerospace and GE Vernova pages. Be sure to follow each to keep up with the future of aviation and energy.

Roles and Responsibilities:

- ✚ Co-ordination with the onsite team to gather the accurate requirements.
- ✚ Understanding of Requirement and design map.
- ✚ Developed Functional Specifications.
- ✚ Created components with process, connection, connection operators, map, map functions, profile.
- ✚ Worked on Dell Boomi Connectors like Salesforce, HTTP Client, Web services server, Soap Client, Database, SFTP, Zuora, Mail, Anaplan, Atom Queues using Boomi.
- ✚ Represented a task for every process with Execute, Logic, connect shapes to perform as set of documents.
- ✚ In process, separating the actual data with adding additional data is done through documenting properties which includes standard document and dynamic document properties.
- ✚ Involved in developing of critical mapping problems depends on client requirements.
- ✚ Designed interfaces using Boomi where quality and performance were of utmost importance.
- ✚ Participated in go-live, migration and post-production deployment support.
- ✚ Defined and Configured Extensions for Connector components.

PROJECT 2:

Client : Valero Energy Corporation, US.

Role : Integration Developer, Support

Environment : Dell Boomi

Valero Energy Corporation, through its subsidiaries (collectively, "Valero"), is an international manufacturer and marketer of transportation fuels and petrochemical products. Valero is a Fortune 50 company based in San Antonio, Texas, and it operates 15 petroleum refineries with a combined throughput capacity of approximately 3.2 million barrels per day and 13 ethanol plants with a combined production capacity of 1.72 billion gallons per year. The petroleum refineries are located in the United States, Canada and the United Kingdom, and the ethanol plants are located in the Mid-Continent region of the U.S.

Roles and Responsibilities:

- ✚ Worked on process which include processing, handling to another using scripting done in JavaScript.
- ✚ Getting the data from third party databases and performing the tasks as per the client requirement.
- ✚ Created integration flows which include the components -Mappings, Process and various other components.
- ✚ Deployed the build process in different environments like Test/Production mode.

- ✚ Co-ordinated with onsite team to gather the accurate requirements. Involved in converting the Data Formats from one to another based on client requirement.
- ✚ Developing the integrations which includes processes, maps, connectors and many other components/steps to transfer the data from one system to other systems by performing required validations.
- ✚ Designed and Developed Boomi Rest APIs by integrating different systems.
- ✚ Extensively worked on Dell Boomi connectors like SFTP, Mail, Database, Web services listener, HTTP client, SuccessFactors, API Service,
- ✚ Involving in different phases like build, deploy and manage.

PROJECT 1:

Client : Phreesia, Hospitals and Health Care, Wilmington

Role : Integration Developer, Support, Admin

Environment : Dell Boomi

Transport for Greater Manchester (TfGM) is the public body responsible for coordinating transport services throughout Greater Manchester in North West England. The organization traces its origins to the Transport Act 1968, when the SELNEC (South East Lancashire/North East Cheshire) Passenger Transport Executive was established to co-ordinate public transport in and around Manchester. Between 1974 and 2011, it was known as the Greater Manchester Passenger Transport Executive, until a reform of local government in Greater Manchester granted it more powers and prompted a corporate rebranding.

Roles and Responsibilities:

- ✚ Strong hands-on experience on designing, building, deploying and management of integration processes. Developed multiple interfaces based on client requirement.
- ✚ Performed Unit Testing and System Testing via Boomi DevOps Center.
- ✚ Extensively worked on Dell Boomi shapes called map, message, process call, add to cache, retrieve from cache, route, stop, business rules, set properties, Decision shape, Branch, Try/catch, Data Process, return document.
- ✚ Worked on Dell Boomi Connectors like FTP, Mail, Database, SAP, Web Services Listener, HTTP Client, Web Services SOAP Client.
- ✚ Created process which includes the components-Mapping, Process Call, Process Route.
- ✚ Involved in converting the data formats from one to another as based on client requirements
- ✚ Worked on Dell Boomi Integration Processes, Web Services, Connectors, Mappings, Functions, Error Messaging and monitoring & maintained integration processes with dashboard & managed processes using Process Reporting and Process Log.
- ✚ Design and development of Boomi processes for other SAP Systems and 3rd Party Applications in the Landscape.
