### Project #: 2

|                      |   |
|----------------------|---|
| <b>Project Title</b> | B2B Wholesale Grocery Platform at Wekirana Technologies Pvt Ltd |
| <b>Organization</b>  | Biggerlian Infotech LLP   |
| <b>Duration</b>      | (April 2020 to Dec 2020)  |
| <b>Designation</b>   | Salesforce Administrator  |
| <b>Team Size</b>     | 04  |
| <b>Environment</b>   | Salesforce.com  |

### Project Description

WeKirana are building a platform for groceries wholesale. The "Kirana Stores", over 11 Million in number are the backbone of Indian FMCG retail, but remain largely unorganized. Using technology and data analytics we are digitizing the way this traditional market operates. By developing the platform, we are bringing the wholesale markets to the fingertips of the Kirana store owners and using the power of data science we are enhancing the efficiency of the supply chain. Kiranas can now order their supplies from their phone and get it delivered at their doorstep. We are a team of passionate people, who want to bring a change and make peoples' lives better. Using our expertise, we aim to impact at least 5% of the \$54 Billion FMCG retail industry in India.

### Role and Responsibilities:

- Develop, maintain, create, and improve validation rules, custom workflows, Visualforce pages, Apex customizations, custom objects, fields, and formulas.
- Work with business leaders and the current development team to document and develop enhancements to our current Salesforce.com org.
- Performs administrative responsibilities to include custom fields, workflows, validation rules, user management, etc.
- Provide hands-on, expert-level technical assistance to developers.
