- rahulchavan050196@gmail.com

## Objective

I am looking for an opportunity where I can focus on a challenging career in an organization which give me a scope to update knowledge in every step. An experienced **in Functional, Non Functional, Globalization, UI Testing, API Testing, Webservice Testing using POSTMAN, API and Automation Testing (Selenium Webdriver with JAVA).**

## Experience

- Currently working as Software Quality Analyst in **Principal Financial Group Private Limited** from 05 Aug 2019 to till date.
- 2 years 10 months of Experience in **Automation Testing(Selenium), Manual Testing, Functional testing, and API/ Web service Testing using POSTMAN.**
- Excellent knowledge of **Core Java, OOPS** concepts
- Experience in SQL, UNIX and Selenium Web Driver
- Strong exposure on tools like **TestNG Framework, build automation tool like Maven.**
- Knowledge in **Testing Methodology, Agile model**
- Good experience in **Software Testing** and Quality Assurance in **Banking** and **Telecom** Domain.

## Experience Summary

- ## Work Experience on Automation Testing

  - Performed Automation testing using **Selenium on Web based (Browser) application**.
  - Good Knowledge in **Frameworks** like **Data Driven Frameworks**.
  - Experience in designing of **POM (Page Object Model)** classes.
  - Good understanding in **JAVA, OOPS** Concept, **Array**, **Collection** and **String.**
  - Executed test scripts on **Google chrome and IE, Firefox**
  - Experience in identifying web elements using **Xpath**.
  - Familiar with use of **MAVEN, GIT, Github, Listeners and Log4j.**
  - Knowledge of handling **Synchronization**.
  - Created scripts which involves **Parameterization, Descriptive programming, Handling dynamic objects etc.**
  - Doing Peer Review and QA for scripts developed by team mates as per the standards followed in the project
  - Good experience of **OOPS concepts, Collection framework, Arrays and String Class in JAVA.**
  - Knowledge of handling **Popups and drop downs.**
  - Experience **TestNG, Annotations** and **keywords**.
  - Good experience in creating, modifying, and enhancing both manual Test cases and Test Scripts created in **Selenium Web Driver**.

o   Good communication, collaboration with proficiency at grasping new technical concepts quickly and utilize the same in a productive manner.

- **Work Experience on Manual Testing**

    o   Very Good understanding of **Software Development Life Cycle** (**SDLC**).
    o   Good knowledge in **Software Testing Life Cycle** (**STLC**).
    o   Knowledge in **Testing Methodology, Agile model**.

    o   Involved in **SRS Analysis**
    o   Responsible for **Test Case Writing,Execution**, **Bug Tracking** and **Reporting.**
    o   Actively involved in **Review** of test Case.

    o   Expertise in **Defect Life Cycle / Bug Life Cycle**.

    o   Performed **Functional**, **Integration** and **Retesting**, **Regression, Sanity, Browser Compatibility** and **Database testing**.

    o   Good knowledge in Re-testing and defects fixed by developer.
    o   Knowledge in Test design techniques like **Equivalence Class Partitioning and Boundary value analysis.**
    o   Experience in **Sanity Testing and Functional Testing.**
    o   Knowledge in **Adhoc Testing,Monkey Testing and ExploratoryTesting.**
    o   Mapped the business requirements with test case by preparing **Traceability matrix.**
    o   Work closely with other testers and developers with bug fixes and **Defect Analysis** Using defect management tool such as **JIRA**
    o   Participated in **Scrum** meetings, **Retrospective** meeting and **Agile ceremoney**
    o   Wrote SQL queries to access the data from the **database** tables to ensure data integrity.
    o   Good Experience in Web Service Testing with the help of POSTMAN Tool. Performed **API** Testing using **POSTMAN** tool.
    o   Basic Knowledge about **UNIX** Commands

## Education

| Qualification | University/Board | College/School | Year of passing | Percentage |
|---|---|---|---|---|
| B.E. ( Mechanical Engineering) | SPPU University | JSPM NTC College of engineering, PUNE | 2019 | 67.23% |
| Polytechnic Diploma in Mechanical | Maharashtra State Board of Technical Education | Y.C.I.P college of Polytechnic, Beed | 2016 | 68.41% |

## Technical Expertise

- **Testing types**            :  Manual Testing,Automation Testing,API testing and Database Testing
- **Operating Systems**     : Windows Family and Unix
- **Database**                    :  Oracle 11g, MYSQL
- **Programming Languages** : Java and SQL
- **Bug Tracking Tools**        : **JIRA**
- **Automated Testing Tools** : Selenium
- **Testing Framework**        : TestNG, Data Driven Testing by using Apache POI, POM.
- **Web Technlogy**             :  HTML

## Project Summary

**1)**

| | | |
|---|---|---|
| **Project Name** | : | **Equity Capital Markets** |
| **Domain** | : | **Investment Banking** |
| **Client** | : | Evercore's Investment, USA |
| **Testing Methodology** | : | Functional Testing, Database Testing and Automation Testing |

**Project Description:**

Evercore's Investment Banking business advises its clients on mergers and acquisitions, divestitures, restructurings, financings, public offerings, private placements and other strategic transactions and also provides institutional investors with macro and fundamental equity research, sales and trading execution. Evercore's Investment Management business comprises wealth management, institutional asset management and private equity investing. Evercore provides independent financial restructuring advice to companies, creditors, shareholders, and other stakeholders, both in and out of court. The company specializes in providing advice to clients on complex balance sheet issues and transformational situations.

- **Responsibilities**

  o  Understand the User story document and analyze the requirement.
  o  Prepare the test case from use case
  o  Requirement Analysis: Understanding the requirements and communicating with Project Owner team for better understanding of the requirements.
  o  Responsible for testing deliverables, prioritizes and monitors activities to meet such dates for individual assigned features.
  o  Identified End to End Test Scenarios, Test Cases and Test Data.
  o  Prepare the test cases from use cases
  o  Responsible for Sanity testing.
  o  Involved in the creation of the test cases according to functional specifications.
  o  Involved in test Report.

- o Involved in review test case and send review comments to colleagues.
- o Performed Functionality Testing, Retesting and Regression Testing and marking the status in the defect management tool.
- o Also involved on the automation testing by using Selenium webdriver
- o Creating the classes of POM and Test as per the requirement of the framework.
- o Involved in the daily scrum meeting.

**2)**

    **Project**        **: Billing monitoring System**
    **Client**         **: Aeneas Internet and Telephone, USA**

**Description:**
- This 'CRM- Billing and payment 'allows communications service providers (CSPs) to integrate Comarch Customer Relationship Management (CRM) applications with third-party billing systems, eliminating the need to develop customized integration solutions.

- With Aeneas Internet and Telephone, CSPs can leverage open standards to improve their customer relationships and reduce the time and cost associated with integrating their CRM system and third party billing systems."

**Key advantages**

- Bill more quickly and accurately when an order is placed by communicating relevant account, order and product information to the billing system in the form of a communications industry-specific XML message
- Track all messages published to the billing system and update customer records accordingly
- Maintain accurate data by synchronizing the product catalog with the billing system
- View bill summary information and bill images, as well as search customer records by account, order or product/item number - allowing customer service representatives to call up relevant data when responding to customer inquiries

**Responsibilities:**
- o Creation of detailed test conditions and test cases from the Requirement document
- o Performing Retesting of defects and system regression testing making sure present defect has not lead to some other defect in the application.
- o Peer Review of the test cases written.
- o Testing on Assembly, QM and staging environment. Have good knowledge of working in project with AGILE model.
- o Understand the Sprint Backlog document and analyze the requirement.
- o Prepare the test cases from use cases
- o Responsible for Sanity testing.
- o Execute the test case to validate customer requirement
- o Involved in review test case and send review comments to colleagues.
- o Involved in the data validation for Billing system
- o Preparing daily report for the executions of the testcases
- o Participate in scrum meeting to discuss about project progress report every day.

## Personal details

| | |
|---|---|
| **Name** | : Chavan Rahul Sopan |
| **Date of Birth** | : 05/01/1996 |
| **Mobile No** | : 8010736719 |
| **Current Address** | : Row House no.07,Renuka pride, Shinde Nagar Beed. |
| **Languages** | : English, Hindi, Marathi |

## Declaration

I do hereby declare that all the information given above is true to the best of my knowledge and belief.

**Place** : Beed
