EXPERIENCE

Accenture Services Pvt. Ltd., Pune Salesforce

Software Developer-

Oct 2018 - PRESENT

I have worked with clients like VMware on Sales and Service Cloud applications with a good understanding of the CRM processes.

- Proficiency in following the Agile Methodology SDLC (Scrum Based) project implementation.
- Involve in sprint planning with the client, story point assessment etc
- Worked extensively on Apex Triggers, Classes and Test Classes.
- Coordinated with business to identify and support business process requirements and development needs.
- Hands On experience on Salesforce customization like Batch Class, Controller classes and Lightning Web Components.
- Managed API integrations and web services. Familiar with Salesforce Integration – REST and SOAP APIs ,connections, etc. Also worked on Salesforce Lightning Process Builder, Workflow Rules, Lightning UI/UX, app builder and creating Lightning Web Components
- Independently handled major deliveries. .
- Implement security model in SFDC using Profile, Sharing Rules, Organization Wide Default Sharing, Role Hierarchy, Permission Sets, and Apex Sharing.
- Also worked on Classic to Lightning Migration and Optimization of functionality like Trigger and Query optimization.
- Capable of rapidly learning new technologies and processes, and successfully applying them to projects and operations.
- Received client appreciations.
