WORK EXPERIENCE

Application Developer Consultant Thoughtworks India

06/2021 - Present

Pune, India

Achievements/Tasks

- **Banking Application Expertise:** Proficiently contribute to the development of a complex banking application powered by Golang. Collaborate closely with cross-functional teams to build and enhance features that ensure secure transactions, compliance with regulations, and seamless user experiences.
- Contributed to the rapidly evolving industry of cryptocurrency and fintech by delivering cutting-edge microservices that met the highest standards of quality and performance.
- **Issue Debugging:** Demonstrate a meticulous approach to identifying and resolving issues within the application. Utilize advanced debugging techniques, log analysis, and thorough testing to swiftly diagnose and rectify issues, ensuring minimal disruptions to critical financial operations.
- **Continuous Integration and Deployment (CI/CD):** Take ownership of establishing and maintaining a robust CI/CD pipeline using Docker and Kubernetes. Implement automation for building, testing, and deploying Golang microservices, enabling efficient and reliable application updates.

Associate Software Developer Altimetrik

06/2019 - 05/2021

Pune, India

Achievements/Tasks

- As a Junior Full Stack Developer, played a key role in developing a banking application that integrated Mastercard's tokenization API using Spring Framework and Angular, ensuring seamless transactions and an outstanding user experience and ensured applications security and ability to interact with multiple APIs and databases.
- Utilized a cutting-edge tech stack that included Spring Boot, Spring Security, Java 8, and Angular (Basic Knowledge), demonstrating my technical prowess and ability to learn new technologies quickly.
- Proactive involvement in technical discussions and presentations for benefit of team, collected feedback on different stages and directly addressed concerns
- Assisted with the creation of documentation such as release documentation, user guides and software development guides
