- Salesforce Admin.
- Data Migration.
- Java Technologies: Core Java, Collections Framework.
- Software: Visual Studio Code, Android Studio, Postman, Eclipse, PyCharm.

## Project

**Company: Marlabs Innovations Pvt Ltd.**

### ❖ **Project: BUNGE CPX**

The project involves designing and developing a custom Quoting Application to the specific needs of the client. The application aims to streamline the quoting process, enhance data accuracy, and improve collaboration across departments. The project uses the strong features of Salesforce, including custom screens, data modeling, Apex development, Lightning Web Components (LWC) for the user interface, and integrations with SAP and SharePoint.

### ➤ **Responsibility:**

- Create a user-friendly Quoting Application within the Salesforce platform to simplify the quoting process.
- Design custom screens and user interfaces that enhance usability and efficiency.
- Develop a comprehensive data model that captures all relevant quoting information and ensures data accuracy.
- Implement Apex code for custom functionalities and business logic tailored to the client's requirements.
- Utilize Lightning Web Components (LWC) to build a modern and responsive user interface for seamless user experience.
- Developed custom integrations with third-party systems using REST APIs (Sharepoint, SAP, Oracle)
- Participated in daily stand-up meetings and provided updates on project progress.
- Conducted unit testing and provided support to the QA team during testing phases.
- Successfully implemented Custom Settings, Named Credential and Metadata solutions to enhance system functionality and streamline business processes.
- Performed Production deployment activity using change sets
- Provided support to end-users and resolved technical issues in a timely manner.

## **Project: Panasonic**

The project focuses on creating a Sales Application within Salesforce's Sales Cloud. The application is designed to manage the entire sales process, from lead generation to opportunity management and quoting.

### **➤ Responsibility:**

- Create a robust data model that captures lead details, opportunity progress, quote generation, and related information
- Integrate the Sales Application with Oracle systems to synchronize customer data and order information. Enable real-time data exchange for accurate sales insights.
- Develop a comprehensive data model that captures all relevant quoting information and ensures data accuracy.
- Used Lightning Web Components (LWC) and Flow for creating a user-friendly interface.
- Designed and developed custom Apex classes and triggers to automate business processes
- Provided support to end-users and resolved technical issues in a timely manner.
- Participated in daily stand-up meetings and provided updates on project progress.

## **CERTIFICATION**

- ❖ Salesforce Certified Platform Developer I
- ❖ Salesforce Certified Administrator.

## **ACADEMIC QUALIFICATIONS**

- ❖ KLE College of Engineering and Technology, Belgaum (Computer Science Engineering, (08/2015 - 06/2019)

## **PERSONAL DETAILS**

- ❖ Name: Mr. Darshan Belgaonkar
- ❖ Date of Birth: 16/08/1997
- ❖ Address: Brambling Galli Bijagarni Belgaum 591108 Karnataka.
- ❖ Current Address: Btm Layout, Bangalore, India
- ❖ Language Known: English, Marathi, Hindi
- ❖ Marital Status: Unmarried.
- ❖ Nationality: Indian.
