  - o Worked with citizen developers for business automation and digitalization.
  - o Technical Consultation at Discovery Stage of the project.
  - o Mentoring SharePoint and Power Platform beginners.
  - o Worked as core team member for Power Platform and SharePoint Practice.

Recent Project Highlights:

Client Domain	Banking, Financial Services and Insurance (BFSI)
Geography	Global
Project Scope	**Knowledge Management Portal** – To solve the knowledge sharing challenge across business units we created a knowledge management portal on SharePoint and provided features of social media (Like, Comment, Share, Follow) to gamify it. Users was encouraged to use the portal via reward-based system for activities on portal.
Individual Role	Lead Engineer
Tools & Technologies	SharePoint Online, Power Automate
Project Contribution	• Requirement gathering, analysis and feasibility checks. • Project discovery. • Code, database, and backend setup. • Azure DevOps setup. (Code repository & Pipelines) • Solution development in SharePoint/SPFX • Custom search using Typescript in PnP JS. • Process automation & notifications using Power Automate. • Issue troubleshooting & resolution.

Client Domain	Manufacturing
Geography	Europe
Project Scope	**Vendor Invoice Management** – The client has to deal with multiple vendors to procure raw data and services. The process was paper based and needed manual interventions. We created a PowerApps based application to manage complete lifecycle of the invoice from gate to SAP entry. It saved multiple man hours of client and enable easy monitoring and auditing of the system.
Individual Role	Lead Engineer
Tools & Technologies	PowerApps, Power Automate, SharePoint Online, SAP.
Project Contribution	- Requirement gathering, analysis and feasibility checks. - Project discovery. - Solution architecture and backend setup. - Environment setup, solution creation, ALM pipeline setup, On-premises data gateway setup. - AI builder configuration for Invoice OCR (Optical Character Recognition) - SAP connector configuration for SAP RFC consumption in Power Automate. - Canvas app development with role-based screens. - Creating SharePoint delegable queries for large data set manipulation.

ACADEMICS

- Tatyasaheb Kore Institute of Engineering and Technology, Kolhapur.
  Bachelor of Engineering (Computer Science& Engineering), 2013-2017
  Percentage – 74.69%
- Jawahar Navodaya Vidyalaya, Beed
  - o HSC (2012-2013) Percentage: 76.6%
  - o SSC (2010-2011) CGPA: 8.2

PERSONAL DETAILS

Gender   : Male
Father's Name   **:** Rameshwarappa Gulve.
Date of Birth   **:** 13-11-1995
Languages Known   **:** English, Hindi, Marathi.
Marital Status   **:** Single
