EXPERIENCE

AWS GLUE DATA ENGINEER   MAR 2018 – PRESENT
KYOTO ENVIRO TECHNOLOGY. BANGALORE.

Client : COSTCO,USA

- Used various AWS analytics services like Glue,S3,Redshift,Datalake formation,Lambda etc to devlop various ETL jobs.
- Processed raw source files which use to be in .csv,json and parquetformat in S3 bucket and processed them to Redshift.
- Also processed transactional data from RDS MSQL, as source intoReshift.
- Used pyspark for glue ,to apply various transformations and aggregations on the source data.
- Used Athena to query S3 data.
- Worked on optimizing glue jobs.
- Created IAM roles as per requirement.
- By using Redshift spectrum ,queried Redshift data to verify data quality after ETL operations.
- Worked on uploading historical data into Data warehouse which was a one time load.
- Worked on partitioning data in S3,using AWS glue job for better performance.

ETL DEVELOPER   MAR 2015 – FEB 2018
DXC TECHNOLOGIES. BANGALORE.
