Ploy(Singapore Press Holdings), Singapore— *Salesforce Consultant*

5th Aug 2019 - 3rd Jan 2020

a) Payment Gateways PoC and implementation for Adyen and CyberSouce.
b) Full cycle payment Exception Handling .
c) Encrypted Data communication PoC and implementation.
d) Design Pattern implementation for integration .

Cantaloupe(Emaar), Dubai — *Salesforce Technical Manager*

28th Sept 2018- 4th July 2019

With Emaar, my responsibilities were as follows:

a) To ensure technical deliveries,
b) Coordinate with business teams for requirements and implement the same to the best of my abilities.
c) In short span of time I got involved in two major development projects,one was development of Communities for international sales
d) Second one is for the change in Emaar buying property option, where instead of selecting a property earlier, a customer can now make direct payments without selecting one.
e) I did several enhancements in the existing payment gateway for payment via Amex card.
f) I introduced a completely new payment gateway for Emaar's Chinese customers called Noon payment gateway, exclusively to receive payments from Union Pay Cards.
g) Was actively involved in many major internal custom sales processes.
h) Was Involved in all architectural initiatives in Emaar's Salesforce

implementation.

i) Design Pattern implementation for integration .

Tavant Technologies, India — *Technical Lead*

7th Nov 2016 – 10th Aug 2018

With Tavant, I started as a technical lead, I worked on several integration projects , CloudCraze(Salesforce E-commerce) ,AngularJs 1.0. I also managed a team of 6 senior Salesforce developers. Twice got awarded as best quarterly performer. Below is the list of projects for Tavant's clients that I delivered .

a) Land 'O'Lakes - Worked on CloudCraze ecommerce platform.Did a PoC for classic to lightning transition.

b) Doosan-Bobcat - Created REST resource for integration from Master server to Salesforce , also wrote processing of further actions.

c) Mooza - Created Bitcoin Pay integration from Salesforce, created integration for receipt generating system on Salesforce called Fakturoid. Worked on integration of Memsource from Salesforce, created several aspects of it such as project creation, project updation, listing by parts etc. Made lightning components of the same.

d) Motorola Solutions: Did consolidation of triggers implemented best practices, did proof of concept of lightning communities.

Cvent , India — *Senior Salesforce Developer*

5th June 2014 – 4th Nov 2016

Cvent's experience was different from the employers till now in my career as Cvent had in house implementation .So other than technical work I also provided end to end solutions for internal implementations such as:

a) Custom reporting for sales reps.

b) Finance total value opportunity creation , case management solution,apex based round robin implementation for lead assignment and multiple modules releases of communities with new and better solutions to create better use of the same .

c) I managed a team of 4 developers and was responsible for maintaining best practices of apex code.

d) I also did two integration projects, first was SOAP based database related integration and second was REST based Oanda integration to get the exchange rates on a daily basis for multi-currency implementation.

During my tenure of 2 years with Cvent I was awarded as MVP(most valuable player) on several occasions .

Simplion Technologies, India — *Senior Salesforce Developer*

9th Aug 2013 – 4th Jun 2014

With Simplion Technologies, I had the best working experience in Salesforce domain,I got an opportunity to learn about the different horizons of Salesforce such as partner portal and customer portal . I made several custom complex visualforce pages ,triggers and learned more about best practices. Below is a list of client(s) and work that I delivered for them. Was also awarded employee of the quarter.

   a) Workday – Did transition from "Portals" to "Communities",designed Visualforce pages,wrote triggers (implemented best practices and did consolidation).
   b) RingCentral - Wrote visualforce controllers and created test classes for the same.

SfClouds , India — *Salesforce Developer*

7th Jan 2013 – 7th Aug 2013

With SfClouds I worked as a Salesforce Developer and worked extensively on custom visualforce pages, triggers, scheduled classes and batch processes. Here I learned about the best practices that can be implemented in apex and visualforce code. Below is list of client(s) and work that I delivered for them

   a) Opportunities For Disabled Foundation - Designed (PDF-Receipts) Visualforce Pages, Triggers.
   b) New Car Sell Off - Designed Visualforce pages,Triggers, Test Classes, Batch Class.
   c) Sparklink - Designed Visualforce pages, Triggers and Google Maps API implementation.

.

Xiarch , India — *Business Analyst(Salesforce)*

1st of Aug 2010 – 31st Oct 2012

I started my career with Xiarch, here I worked on workflows, email templates, layouts, record types, sharing settings and role hierarchy. I also did a beginner level work on triggers,visualforce pages and batch classes. Below are my clients and work done for them.

   a) Sacred Rides - Designed Visualforce pages, Web-to-Lead .Forms (Javascripting),Configured Workflows.
   b) Streamline Solutions - Wrote Triggers, Workflows,Test Classes.
   c) NeuroQ - Wrote Triggers, Test Classes, Visualforce pages.

B.E. (Computer Science and Engineering), Haryana, Faridabd— *Lingaya's Institute Of Management and Technology*

August 2006 - July 2010
