Projects:-

CDAC (DAC) Project

i) **Name - "E-HealthCare System"**
ii) Role - Individual Project.
iii) Domain - **J2EE**, **Spring**, **Hibernate**, **MySQL** database.

Synopsis - In the Proposed System, we provide a platform to the user where user can take the online appointment on the basis of doctor specialization and also can fix their health issue. In addition, user can send the request to the doctor to solve their health issue. In this project we used Spring MVC with hibernate as front tend and MySql database as back end. In future user can upload their medical reports for further reference.

Company:- Intellect Design Arena Ltd

i) Name: **"IPSH (Intellect Payment Services HUB). "**
ii) Client: Santander bank, HDFC Bank.
iii) Domain: Core Java, JSP, J2EE, Oracle Database, C24, GMFT
iv) **Synopsis**:

- IPSH is a payments orchestration engine product offered by intellect.
- IPSH supports various industry standard file formats like MT101,PAIN001,SAPIDOC, EDIFACT-PAYMUL and other proprietary file formats like csv, xml, plain text formats.
- Incoming payment files are parsed and validated against formats configured and handoff file which is in agreed format with downstream payments system is generated and sent to downstream system for actual payments processing.
- At each of the stages of parsing and validations appropriate acknowledgement files are generated in file formats as per corresponding input file and sent back to the corporate clients.
- In case of any failure at IPSH end or in case of any failure at downstream system NACK(negative acknowledgement) are generated in agreed format and sent to the client.

Role and Responsibilities

- Effective involvement in planning meeting and coordinate with the Technical Lead on current programming tasks.
- Developing the Code as per the requirements and collaborate with other programmers to design and implement features.
- Debugging the issues related to code, unit testing and integration testing.
- Upheld program quality and delivery standards in developing software solutions.
