Java, J2EE, JS, JSP, Servlet	★★★★☆	Time management	★★★★☆
JIRA,GITLAB,Clear Quest	★★★★☆	Coaching	★★★★☆
Oracle, Sql, Groovy, unit	★★★★ ☆	Leadership Skills	★★★★☆
Product Backlog Grooming	★★★★ ☆	Decision-making	★★★★☆
Software Development life cycle	★★★★☆	Problem-solving	★★★★☆

EDUCATIONAL DETAILS

2006	Master of Computer Applications, Kumaraguru College of Technology, Coimbatore -India
2003	Bachelor of Science (Computer Technology), Mahendra Engineering College, Tiruchengode –India

CERTIFICATIONS

➢ Certified Scrum Master
➢ DevOps Foundation V3
➢ ITIL Foundation V4
➢ DevOps Plus

WORK HISTORY

Sep'2010 – Till date	Scrum Master at Boeing India Pvt. Ltd. , India
Apr 2009 - Aug 2010	Senior Software Engineer at Avinyax Web Solution, India
Oct 2008 - Apr 2009	Senior Software Engineer at Stampede solutions sdn. Bhd., Malaysia
Mar 2008 - Aug 2008	Software Engineer at iNavigate sdn. Bhd. , Malaysia
Feb 2006 - Feb 2008	Software Engineer at India Softsys , India

P R O F E S S I O N A L S U M M A R Y	
Apr 2020 - Till Date	**SCRUM MASTER / Jeppesen / PingBPEL (Trillium, FOX SOA, TPS, BDA)**

- Leading Team of 5 members towards achievements.
- Facilitating the Team on Infrastructure ,Technical Skills
- Collaborated closely with product owner on backlog refinement, prioritization and ensure acceptance criteria were agreed on stories were ready for sizing
- Daily scrum meeting and helping to improve sprint planning and retrospective, spring and release planning
- Help the team by organize the agile and sprint Retrospective meeting.
- Effectively tracked teams progress include Burn Down, Velocity and release forecasting
- Expertly promoted continuous improvement and helped the team increasing productivity

Aug 2018 - Mar 2020	**SCRUM MASTER / Inmedius / S1000D Manager,Interact, Review, Authorpro**

- Leading Team of 7 members towards achievements.
- Facilitating the Team on Infrastructure ,Technical Skills
  Collaborated closely with product owner on backlog refinement ,prioritization and ensure acceptance criteria were agreed on stories were ready for sizing
- Daily scrum meeting and helping to improve sprint planning and retrospective, spring and release planning
- Help the team by organize the agile and sprint Retrospective meeting.
- Effectively tracked teams progress include Burn Down, Velocity and release forecasting
- Expertly promoted continuous improvement and helped the team increasing productivity

Jan 2014- Jun 2018	**SOFTWARE PROJECT LEAD / Jeppesen / Oracle EBS**

- Leading Team of 5 members towards achievements.
- Involved in client interactions for requirements analysis.
- Responsible for Apps Development and Testing.
- Responsible for Maintenance Activities and Documentation and support.
- Involved in module Development, Testing, for requirement analysis, High level design review, detailed design review and Use case review
- Writing unit test cases

Jan 2013 - Dec 2013	**Software Engineer III (Team Lead) / BOEING / Annotation Tool**

- Leading Team of 3 members towards achievements.
- Involved in client interactions for requirements analysis.
- Responsible for Development and Testing.
- LOG4j Issues and Apache Configurations, Tomcat configurations.
- Responsible for Maintenance Activities and Documentation and support.
- Writing Junit test cases.

Sep 2010 - Dec 2012	**Software Engineer III / Cdg-Central, UAL, Hyundai / SonD**

- Team Player with positive manner.
- Involved in client interactions for requirements analysis.
- Responsible for Development and Testing.
- LOG4j Issues and Apache Configurations, Tomcat configurations.
- Responsible for Maintenance Activities and Documentation and support.
- Involved in module Development, Testing, for requirement analysis, High level design review, detailed design review and Use case review
- Writing Junit test cases.

May 2009 - Jul 2010	**Senior Software Engineer / Gen Concepts, SG/ Quotation Invoice**

- Responsible for Development and Testing.
- Responsible for Maintenance Activities and Documentation and support
- Created the build scripts using Ant.

Oct 2008 - Apr 2009	**Senior Software Engineer / Toyota Insurance, Malaysia / Volare-Debt Collection Management System**

- Developed the User authentication, preference module, Workspace module and document delivery & management module using JSP and Servlets.
- Improved the application performance using java built-in tools.
- Developed the Unit testing framework for the project using JUnit.
- Participated in code reviews to other modules in the project.
- Graphic User Interface of the application
- Created system architecture for second phase, which will include integration with external patent web services, journal servers & other scientific & Research systems
- Created the XML based web service gateway a communication layer for data retrieval from external systems
- Involved in module Development, Testing, for requirement analysis, High level design review, detailed design review and Use case review

Oct 2008 - Dec 2008	**Senior Software Engineer / Standard Charted Bank , Malaysia / SCB DAILY REPORT**

- Designed and documented the High Level Design (HLD) for the entire application.
- Developed the User authentication, preference module, Workspace module and document delivery & management module using JSP and Servlets.
- Improved the application performance using java built-in tools.
- Developed the Unit testing framework for the project using JUnit.
- Graphic User Interface of the application
- Involved in module Development, Testing, for requirement analysis, High level design review, detailed design review and Use case review

Apr 2008 - Aug 2008	**Senior Software Engineer / Maxis,DIGI,CELCOM, MALAYSIA / myCar, Content Download**

- Developed the User authentication, preference module, Workspace module and document delivery & management module using JSP and Servlets.
- Graphic User Interface of the application
- Created system architecture for second phase, which will include integration with external patent web services, journal servers & other scientific & Research systems

Feb 2006 - Feb 2008	**Senior Software Engineer / Hidden Villa Ranch, USA / Location Tracking System**

- Developed the POC for the server side component using EJB, JSP, Servlets, XML Parsers, core Java.
- Designed the system using UML and Rational Rose.
- Documented the design of the project.
