Exploring and Cooking Traditional Indian dishes.

OBJECTIVE

To secure a Challenging Position in an Challenging Development Environment where I can contribute for the organizational growth and to improve my skills as well. Secure a responsible career opportunity to fully utilise my trainings and skills.

EXPERIENCE

RCS TECHNOLOGIES

Feb 2020

Software Developer

- Feb

Worked on Contract Basis for Client WELLS FARGO,

2021

CHENNAI from Parent Company RCS TECHNOLOGIES,

BANGALORE as Software Developer since Feb 2020 to till date.

PROFESSIONAL SUMMARY

1+ yrs of Experience in Robotic Process Automation using UIPATH and BLUEPRISM

Sounds good knowledge on **RPA tools**, features and their abilities.

Expertise in building complex business flows and Robotic Process Automations using Automation Special tools like **UIPATH, BLUE PRISM**

Hands on experience in developing BOTs using UIPATH and **UIPATH ORCHESTRATOR QUEUE**

Good exposue at Database Interaction, good at designing user controls and custom controls.

Sounds good knowledge in **UIPATH RE Framework** concepts

PROJECTS

Daily SLA Reporting Bot

Tool Used : UIPATH 2018.4.5

Roles : Bot Creation - Design, Develop, Test, Deploy, Monitoring, Scheduling and Report generation.

Client : WELLS FARGO

Project description : The process is to automate an email triggering Bot. The process has been set up in UIPATH RE Framework into 2 processes as Dispatcher and Performer. The source application is MS EXCEL files placed in Business Shared Drive. The target is to send out emails using API EMAIL AGENT PACKAGE. The input Excel file contains Problem Ticket No.,Resolution SLA, Assignee Email id...so on. The Mapping excel file contains email id's of Managers'/Leads'. The Bot is supposed to send out Summary excel attachment to Managers which contains consolidated count of SLA for particular groups and individual emails to Assignees based on Business Requirements. The process also includes report module for each execution of Bot along with Performer.
