  - Committed to JIRA, GIT, Jenkins, Artifactory, confluence etc.
- 

## PROFESSIONAL CERTIFICATION

- SAP Certified Development Professional - **SAP Commerce Cloud 1905 Developer**
  - **AZ-900 - Microsoft Azure Fundamentals & AZ-104 - Microsoft Azure Administrator** by Microsoft Azure
  - Completion of Oracle Java Programming Language Java SE 6
  - Completed **Business English Certificate (BEC)** preliminary and vantage courses
  - Succeeded in C and C++ language training course conducted by IIT, Bombay
- 

## WORK EXPERIENCE

- Working as **Senior Software Engineer** in **Nagarro Enterprise Services Pvt. Ltd.** Mar 2022 - Till Date
  - Worked as **Senior Software Engineer** in **Bosch Global Software Technologies Pvt. Ltd.** Jul 2018-Mar 2022
  - Worked as **Project Trainee** in **Bosch Global Software Technologies Pvt. Ltd.** Dec 2017 - April 2018
- 

## EDUCATION

**Bachelor of Computer Science and Engineering**  
Sri Krishna college of Engineering and Technology, Coimbatore.

**March 2018**  
CGPA: 8.9

**Class 12**  
Vidyaa Vikas Girls Hr. Secondary School, Tiruchengode.

**April 2014**  
Percentage: 93.3

## PROJECT DETAILS

<b>Project Name</b>	<b>Balsam Brands</b>
<b>Role</b>	Senior Software Engineer
<b>Framework</b>	SAP Commerce 6.6

### Responsibilities:

- Analysis and understanding requirements
- Involved in checkout revamp based on the business requirement for system stability
- Integrating system with Signifyd for fraud check, altering the order process in case of cancelling order
- Involved in demonstrating the features to clients or customers

<b>Project Name</b>	<b>Bosch - Automotive Aftermarket</b>
<b>Role</b>	Software Engineer
<b>Framework</b>	SAP Commerce 2105

### Responsibilities:

- Understanding & gathering of requirements and involved in sprint, retrospective meetings for effective planning
- Interacting with various stakeholders for functional/technical/requirement clarifications and providing design/implementation approach
- Developed assigned Stories and Bugs and effective interaction with testing team for bug free system
- Responsible for Production deployments and security patch Upgrades on live shops
- Involved in setting up new stores as part of roll out for new countries
- Implemented Mailjet integrations to send emails for all scenarios
- Involved in adding up features on checkout & cart based on the requirements
- Implemented content search using Solr and displaying in Product Display Page
- Worked on WCMS for creating pages & maintaining contents via Smartedit
- Worked on maintaining customer master data using cronjobs
- Resolving support incident and customer coordination to resolve issues
- Involved in code review and ensure the stability & code quality
- Lead & facilitated new resource on project day-to-day activities

<b>Project Name</b>	<b>Bosch - Building Technology</b>
<b>Role</b>	Software Engineer
<b>Framework</b>	SAP Commerce 1905

### Responsibilities:

- Analysis and understanding of functional requirements, requirement analysis and estimations
- Worked on Implementation of rollout topics
- Involved in customer master data maintenance using Batchprocessor
- Worked on localization and content creation
- Implemented Backoffice Customization based on customer requirement
- Involved writing Business logic to fetch the Results from the Elastic search service and data population
- Worked on impex - Navigation Node, Configuring social media links, FAQ's
- Monitoring Sonar cube and analyzing OSS Scan Report
- Effective testing & debugging and involved in writing Junit test cases
- Exposed to Integration topics
- Part of Production support and deployments on live shops

<b>Project Name</b>	<b>Bosch – TT Nordics</b>
<b>Role</b>	Software Engineer
<b>Framework</b>	SAP Commerce 1811

**Responsibilities:**

- Involved in maintaining the live shop
- Implementing minor changes, feature enhancement or bug fixes when needed
- Maintaining the customer & product master data
- Involved in maintaining the content via smart edit
- Responsible for ensuring the stability of the system
- Involved in applying security patches, deployments

<b>Project Name</b>	<b>NUPCO</b>
<b>Role</b>	Associate Software Engineer
<b>Framework</b>	SAP Commerce 6.6

**Responsibilities:**

- Involved in grooming and sprint meeting to understand requirements
- Implemented Email notification for configured business process when customer master data is loaded
- Worked on Email localization, Templates, Events and MVC flow
- Developed Hotfolder Integration topics
- Worked on WCMS
- Worked on various impex, focused on importing Products, Users and WCMS
- Involved in bug fixing & Debugging
- Involved in reviewing test case & suggesting my comments

<b>Project Name</b>	<b>Cortana Bot</b>
<b>Role</b>	Project Trainee
<b>Technology</b>	Azure cloud, Azure SQL, LUIS, Bot framework

**Responsibilities:**

- Analyzed, designed and finalized architecture for Cortana Bot
- Involved in implementing of core functionality
- Learnt and applied LUIS API for developing functionalities
- Involved in Azure deployment and connected the Bot with Cortana
- Involved in Testing the developed functionalities

**SKILLS**

Language : Core Java  
Framework : SAP Commerce, Spring MVC  
Web Technologies : HTML, CSS, JSP, JavaScript  
Build Tool : Maven, Ant, Gradle  
Web server : Apache Tomcat  
Database : MySQL  
Versioning Tools : Git, Bitbucket  
Operating system : Windows, Ubuntu
