Shashank Singh

Robotic Process Automation ~Blue Prism~Automation Anywhere~UIPath~Win Automation~Automation testing ~Manual Testing~Python

✉ shashankrobot@gmail.com 📱 +917760763150

Key Skills

Intelligence Automation (UiPath, AA, BP,ABBYY)

Page Object Model

SDLC,STLC, Scrum,Agile

Core Java, RPA, Python

Defect Management

Orchestrator, ABBYY Flexi capture

Image Recognition, ABBYY OCR

ABBYY Project Setup Station

Delivery management, Team Leading

Soft Skills

Change	Collaborator
Self Motivator	Communication
Thinker	Planner

Extensive experience in executing full life-cycle development projects; ramping-up projects within time, budget & quality parameters, as per project management & best practice guidelines.

Profile Summary

- A competent professional with 5.4 years of experience in **Robotic Process Automation, Surface Automation and Client Coordination, Complete knowledge from requirement gathering to Server Deployment.**
- Hands on Practice on **Blue Prism, Automation Anywhere, Win Automation, UiPath, ABBYY OCR.**
- Established and enforced standard test processes and deliverables within the gated process to streamline testing and support automation efforts
- Good knowledge and experience in Supply chain management-E-Commerce, Sales and marketing and Transportation domains.
- Good knowledge on Automation Tools like Blue Prism.
- Extensive knowledge of software development process and methodologies
- In-depth knowledge of software testing processes and **program Logic** and **flowchart**.
- Well versed in **process studio, Object studio Orchestrator, ABBYY Flexi Capture, ABBYY Project Set up station.**
- In-depth knowledge of **Surface Automation, Image Recognition.**
- A result-oriented individual with strong analytical, communication, interpersonal, presentation and organizational skills
- Leading a Team of 5 RPA developers and **SettingUp RPA COE for Client**.

Education

- B.E.(Electronics and Telecommunication) from CMR Institute Of Technology affiliated by VTU(Visvesvaraya Technical University) 2015.

- M.Tech(Data Scientist) from BITS Pilani(2020-2022)

- UIPath Advance, Automation Anywhere, Win Automation certified.

- ABBYY certified, Python Certified.

💼 Work Experience

December 2015 to October 2017 with Concentrix Pvt. Ltd.as a Analyst. November 2017 till 28th June'2019 worked as RPA Consultant in DXC Technology. July 12th'2019 till date working with Cognizant Technology Solution as RPA Senior Developer and Solution Architect.

Projects Handled:

Title**: Zazu Robot.**
Description: This Bot includes **SAP Automation(SAP GUI)** which compare data from Pdf using **ABBYY OCR** Engine Pdf Extraction integrated **ABBYY with UiPath** to get output for OCR in Excel format and use it for Orchestrator Queue. The BOT compare data from Commercial invoice with SAP data and send respective emails as per successful and Exception.

Titel: **HR Job Posting BOT** (**Job Posting Compliance Tool)**
Description: Designed a BOT using UiPath, **Curl Command and DataBase** for Tracking no. of Jobs applied by people in site and how many of that contains the requirement matching keywords. As per that the BOT will compare each Job description with word Analyzer using **API integration with Uipath** will send Email with Excel(.xlsx) file with **Bar Graph and chart** which contains complete performance of each HR.

Title: **DXC-Delta opportunity- Swivel between Internal tools using RPA.**
Description: Delta Opportunity assigned by DXC i.e., to swivel between internal tools using RPA and Win Automation as the Platform. This Project include **synchronizing multiple** tools so, that once **an email gets receive to the mail box**, the date from the mail box get extracted and filled in other tools and a Ticket number will get generated automatically. The customer will have the update on the ticket number accordingly.

Title: **Green Cargo BOT (Swivel of Data from ServiceNow to other tools like Aldea, Aries)**
Description: Requirement collection to end to end Development and Deployment of the BOT using UiPath. The Bot logging to **ServiceNow** and collect all the data and then Login to Aries and Created Request ID as per collected data and Logging to Aldea using the request ID. The BOT also checks certain Parameters on basis of which it creates request.

Title: **Mayavi BOT (Disabling, Adding and Deletion of Item in internal Management tool)**
Description: This Bot was developed that It will check if the particular item is Disabled or not and make it disable if it is enable. Then It will create or Add Item to the request as request by customer in Excel sheet shared. Used **VB script** to make the changes. Then Delete the Item and request fulfilled.

Significant Accomplishments:

- Delivered all the Quarterly and monthly Release cycles on time, on budget, with high quality (no Sev1s, Sev2s in UAT and Production).
- Designed and developed the Application using the Blue prism tool.
- Successfully automated the test scenarios using in Blue prism tool
- Played a pivotal role in implementing user requirement details.
- Introduced Surface Automation sneak peek to allow business users to feel the application during Engineering Cycles itself.

Technical Skills

Process Management	Flow chart, Algorithm, Logical Thinking.
Programming	Basic of C#, Python, Core Java, C#.Net, VB
Databases	MySQL
Tools	Blue Prism, Automation Anywhere, Win Automation, UiPath, ABBYY OCR.

Knowledge Purview

Test Automation
Server R2012 Deployment and BOT integration. Blue Prism, Process and Object studio, Surface Automation, Orchestrator, Control Room, ABBYY Project Set up Station, ABBYY FlexiCapture.

Personal Details

Languages Known English, Hindi, Bengali.
Hobbies   Learning New Technology, Listening to music, Swimming
Date of Birth   **16th DEC, 1993**
Marital Status   Married
Passport   Yes
