## PROFESSIONAL SUMMARY

- Looking for a job in **Java/J2EE, DevOps**.
- Having total **8years** of experience with **5years** of professional work experience as Java/J2EE, DevOps, Interwoven Teamsite or Java J2EE **Application Technical Support** and **3years** in **Development**.
- Experience in developing web-based applications and software based on Java and J2EE technologies using Servlets, JSPs, Web Services, JDBC, Devops, Ajax.
- Experience in Interwoven Teamsite, Java, J2EE Technical Production Support.
- Proficiency in object-oriented design based on MVC Model-I and Model-II architecture.
- Experience in applying frameworks like Apache's Jakarta Struts
- Experience in **Devops** – Jenkins, Docker, AWS, Unix, Shell Scripting, Python, Ansible
- Experience in **Spring Boot 2, Spring Microservices**
- Experience with JBoss and Tomcat, build tool Ant and Maven 3.
- Experience with Relational Databases like Oracle, SQLServer 2008, NoSQL.
- Knowledge in Object/Relational Mapper like Hibernate for data persistence
- Ability to work effectively in a fast-paced, high volume, deadline-driven environment.
- Participation in all phases of SDLC.

## Profile summary

- Good Development skills, keeping performance and designing at satisfaction level.
- Strong analytical, trouble shooting and problem-solving skills with good interpersonal and communicational skills.
- Highly motivated team player with ability to work in development and production support to meet targets lines.
- Proven ability to work as a team player as well as independently.
- Good communication and interpersonal skills.

## Educational Qualifications

- B.Tech in Computer Science from Uttar Pradesh Technical University (UPTU), Lucknow in 2009 with 64% marks.

## Organizational Scan

- Worked in **Sudrania Fund Services** as Java Developer since from March 2020 till November 2020.

- Worked at Capgemini Technology Services India Ltd. Noida as Consultant since from August 2017 till February 2020.
- Worked at Cognizant Technology Solutions, Bangalore as Associate Projects since from April 2014 till Jan 2016.
- Worked at Yash Technologies, Hyderabad as Software Engineer since from March 2012 till March 2014.
- Worked at National Informatics Center, New Delhi as Programmer from January 2011 till November 2011.
- Worked at Vserve Technologies, New Delhi as Software Developer from January 2010 till December 2010.

### Technical Skills:

Programming Languages	Java 8, JEE 5, XML 1.1
Other Technologies	Struts 1.2, Spring 3.0, Hibernate 3.2, WebServices (JAXB and Restful), Spring Microservices, JavaScript 1.8.2, Log4J, Devops – Jenkins, Docker, AWS, Ansible, Unix18.04
Development Tools	Eclipse 3.6.1, Content Management System, MAVEN 3.0.3, Ubuntu 18.04
Web Servers and App servers	JBoss 5.1.0, Tomcat 6.0
RDBMS	Oracle 10g, SQLServer 2008
Operating System	MS Windows 2000 Server, Windows XP, Windows 7, Windows 8, Ubuntu 18.04

### Work Experience:

#### Project#1:

Title : **Seamless Solution** (June 2020 – Nov 2020).  
 Organization : Sudrania Fund Services  
 Platform : Seamless Solution  
 Environment : Java9, STS, Apache Tomcat, Spring Boot, Rest Webservices, WinSCP, Linux, AWS.  
 Database : MongoDB.  
 Client : Sudrania Fund Services.  
 Team Size : 10

Seamless Solution is providing a complete General Ledger-based post-trade accounting for Managed Accounts as well as Pooled funds. Other information that is used in calculating detailed gain/loss, exposure, positions and valuation information portfolio accounting system. It is a powerful product for maintaining trade, fund accounting and reports.

#### Responsibilities:

- Developed Upload code

- Log Maintain Through Log4j
- Development of Controller, Service and Repository Layer & Data Layer
- Create Database and Operate CRUD Operations
- Work on download Excel, CSV, text files
- Work on Apache poi
- Work on MongoDB Aggregation
- Bug Fixing & Maintenance
- Save Logs in database

### Project#2:

Title : **API Integration** (March 2020 – May 2020).  
 Organization : Sudrania Fund Services  
 Platform : API Integration Fund Services  
 Environment : Java8, STS, Apache Tomcat, Spring Boot, RestWebservices, WinSCP, Linux, AWS.  
 Database : MongoDB.  
 Client : Sudrania Fund Services.  
 Team Size : 5

Sudrania Fund Services API Integration is for giving Transactions details on basis of Exchanges, User Data and the particular API.

#### Responsibilities:

- Developer & Technical Support.
- Involved in creating users.
- Involved in creating Cron jobs.
- Bug Fixing & Maintenance

### Project#3:

Title : **GenX Devops** (November 2018 – February 2020).  
 Organization : Capgemini, Navi Mumbai.  
 Platform : Software Development Life Cycle Management  
 Environment : Unix 18.04, Jenkins, Docker, Kubernetes, AWS, Ansible, Zabbix, Python, Java 8, Spring Microservices, Spring Boot, Rabbit MQ  
 Client : GE  
 Team Size : 20

Devops GenX platform has been developed to streamline CSD application development lifecycle. Team to deploy code to production faster in an automated and responsible way. Devops helps to increase an organizations speed to deliver applications and services. It allows organization to serve their customers better and compete more strongly in the market.

The Basic features of this platform are:

- Better User Experience
- Seamless registration process,
- Customized Account onboarding feature
- Bird's eye view of the health status by Account

- Application onboarding for different types of components
- Support for technologies like java, php, dot net , angular and python
- Better reporting mechanism
- Implemented Microservices using Spring Boot
- Microservices applications are deployed in cloud environment using AWS

Responsibilities:

- Involved in Installing Tools and Configuration.
- Involved in writing commands and scripts in Unix, AWS.
- Involved in Testing Python and yaml.
- Automating Devops Environment.
- Implemented and design multiple Microservices

**Project#4:**

Title	:	<b>Clarity</b> (September 2017 – October 2018).
Organization	:	Capgemini India Pvt. Ltd. Navi Mumbai.
Platform	:	Timesheet and Resource Management
Environment	:	Java8, Eclipse Photon, Apache Tomcat, Spring3, Spring Boot, Hibernate3, JAXB, WinSCP, Linux
Database	:	SQLServer 2008, Oracle12g.
Client	:	Capgemini Netherlands, Germany, Poland.
Team Size	:	25

Clarity is project and Portfolio tool developed by CA vendor, we are using it for Timesheet and Resource Management. Whenever resource books the time against any project we have to export it to the Java GFS system.

Responsibilities:

- Developer & Technical Support.
- Involved in solving defects and developing CRs.
- Solving Support Tickets of Technical issues in Interfaces and Functionality.
- Involved in Building POJOs for Hibernate, Writing DB Queries and testing

**Project#5:**

Title	:	<b>Intel Security Prod Technical Support</b> (April 2014 – Jan 2016)
Organization	:	Cognizant Technology Solutions
Client Side	:	Intel Security
Environment	:	Interwoven Teamsite 7.3.2, Form API, Java 6, Spring 3, Jsp, Open Deploy, Workflow Moduler, CSSDK, XML, HTML, XSLT, Ajax, Javascript, JQuery, IDOL Version10.
Team Size	:	10

McAfee is now part of Intel Security. McAfee products are primarily digital security tools for personal computers and server devices, and more recently, mobile devices having Consumer Products, Business Products, Enterprise Products, and Partner Products. McAfee now delivering proactive and proven security solutions and services that help secure systems and networks around the world, Intel Security protects consumers and businesses of all sizes from the latest malware and emerging online threats. These solutions are designed to work together, integrating anti-malware, antispysware, and antivirus software with security management features that deliver unsurpassed real-time visibility and analytics, reduce risk, ensure compliance, improve Internet security, and help businesses achieve operational efficiencies. Consumer Products provides complete protection for home and home office. Business Products provides cost effective, easy to use security solutions for businesses. In Partner Products one can find a partner or join our global network of resellers and technology alliances.

Responsibilities:

- Responsible for daily handling of priority tickets involved with the issues of static and dynamic data, DCR's, Account locked, Creating Teamsite New Users, invalid data.
- Responsible in writing LSCS query to check data.
- Responsible for checking in for OD fail.
- Responsible in using .ipl for changing and External Attributes.
- Responsible in checking task completion in GMS.
- Responsible for checking partner details using SQL query.
- Responsible in CMS, GMS and .net deployment in QA, UAT and live servers.
- Responsible for flushing cache, Daily checking site in IIS servers.
- Responsible for checking health status of servers and daily logs.

**Project#6:**

Title	:	<b>Infinite Knowledge System</b> (Jan 2013-Feb 2014).
Organization	:	Yash Technologies Pvt. Ltd.
Environment	:	Interwoven Teamsite 7.3.2, Form API, Java 6, Jsp, Open Deploy, Workflow Moduler, CSSDK, XML, HTML, XSLT, Ajax, Javascript, JQuery, IDOL Version10.
Team Size	:	15

There is an increase in demand from clients to provide a solution that would allow their Employees the ability to not only access knowledge articles but to rate the articles, submit feedback and watch related training videos which is provided by Infinite Knowledge System giving IKS User Interactive Interface, Content Management System for HP with Search Capabilities for its clients, filtering, rating the articles, top solutions for best, popular articles for its clients and its second part provides mainly three capabilities - Project Authoring, Content Management, and Site Management.

Responsibilities:

- Responsible for requirement analysis, coding, testing and documentation.
- Involved in developing DCT's and Form API Functionality.
- Involved in development Ajax client for consuming web services and iterating json response.
- Involved in developing component using xslt, html and java.

- Created site pages using templates and components.
- Involved in development of Externals and Controllers.
- Involved in developing custom CSSDK functionalities to the workflows.
- Involved in IDOL server configuration and httpconnector configuration.
- Involved in IDOL crawling of sites in IDOL Server.
- Involved in creating DB, deleting DB, constructing basic action queries in IDOL (eg deleting duplicate records, selecting all records etc.).

### Project#7:

Title : **Compliance Monitoring Report** (July 2012-Dec 2012).  
 Organization : Yash Technologies Pvt. Ltd.  
 Environment : Interwoven Teamsite 7.3.2, Form API, Open Deploy, CSSDK, XML, HTML, XSLT, Javascript, Jsp, Servlets.  
 Team Size : 8

The aim of this project is to give compliance monitoring reports to Western Union personnel and agents. This is to provide users periodic transaction reporting to analyze and monitor transaction activity. The transaction information is limited to access, analysis and downloading.

#### Responsibilities:

- Support and maintenance, requirement analysis, design, coding, implementation.
- Responsible for requirement analysis, coding, testing and documentation.
- Involved in developing DCT's and Form API Functionality.
- Involved in properties file development.
- Involved in developing component using xslt, html and java.
- Created site pages using templates and components.
- Involved in development of Externals and Controllers.

### Project#8:

Title : **PlanPlus System** (Jan 2011 - Nov 2011).  
 Organization : National Informatics Centre (NIC), New Delhi.  
 Environment : Java1.5, Eclipse Ganymede, Apache Tomcat, Jboss, Servlets, Jsp, Struts 1.2, XML, Log4j.  
 Database : SQLServer 2005.  
 Client : Ministry Of Panchayati Raj (India).  
 Team Size : 9

This is a decentralized Planning tool, which aids the various participants through the Planning process, so that informed decisions can be taken by the participants in preparing, vetting and approving the Plan. The interactive workflow starting from need assessment, identification of project, work, preparation of draft annual plans, approval by Technical Appraisal Committee and Final Approval by DPC is captured. The package also provides a holistic view of how funds from different central and state sponsored schemes could be converged to carry out works approved in a Plan.

#### Responsibilities:

- Involved in Developing Forms and Coding Action classes, Coding for Passwords Encryption/Decryption, Form Beans, Entity Objects, and DAO Layer.
- Involved in user properties development.
- Involved in Developing SQL Stored Procedures, writing queries for fetching the data.
- Involved in Developing View pages with struts and jstl tags.
- Involved in Developing Reports in PDF and Excel Format.
- Involved in Reading and Writing Data in XML Format.
- Involved in Meetings with Technical States Team and Secretary.

### **Project#9:**

Title : **MPDT** (January 2010 – December 2010).  
 Organization : Vserve Technology, New Delhi(Company Status - closed).  
 Platform : Medical Plan and Insurance Comparison  
 Environment : Java1.5, Eclipse Galileo, Apache Tomcat, Jboss, Servlets, Jsp, JSTL, Struts 1.2, XML, Log4j.  
 Database : SQLServer 2005.  
 Client : Hewitt, US.  
 Team Size : 8

The Medical Plan Decision Toolkit (MPDT) is essentially a communication tool through which the employees are made aware of the various medical plans he/she is eligible for enrolling. It is a product which helps users in making an educated decision while selecting their medical plan. The product has two phases of development: a) product enhancements b) product implementation with customizations from the base model. The toolkit is designed around three main tools: Medical Expense Estimator, Health Plan Comparison Tool, and Spending Account Estimator.

#### **Responsibilities:**

- Involved in Developing and Coding Action classes, Form Beans, Entity Objects, and DAO Layer.
- Involved in user properties development.
- Involved in Developing SQL Stored Procedures, Writing queries for fetching the data.
- Involved in Developing View pages with struts and jstl tags.
- Involved in Building and Deployment using ANT tool.
- Involved in Manual Testing of generated forms.

### **Training Details:**

From Marg Software & Vserve Technology on Java J2EE, New Delhi Aug 2009 to Dec 2010

**Personal Details:**

**Date of Birth** : 20<sup>th</sup> September, 1985

**Marital Status** : Married

**Languages Known** : English & Hindi.

**Passport Validity Date** : Passport no.- K1549101, Date - (29.12.2011 TILL 28.12.2021)
