## Professional Profile

Currently working as Salesforce Developer at HCL technologies from Feb 2018 to till date.

**Project : OCM,**

**Duration:** Feb 2018– Till Date,

**Role:** Software engineer.

**Description:** OCM is INFOR's enterprise-wide customer relationship management (CRM) tool that provides to Branch manager and representatives the ability to manage customers across all segments. It is also the tool that enables sales process. OCM plays a significant role in changing that sales culture. Now, colleagues can create partnerships across business lines so they can deepen customer relationships by cross-selling. Customers who have a deeper relationship are more profitable.

## Responsibilities

- ❖ Participated in gathering functional requirements and understanding core functionally involved in the business by interacting with various people working for the organization.
- ❖ Involved in various activities of the project, like information gathering, analyzing the information, documenting the functional and nonfunctional requirements.
- ❖ Daily administration such as configuring and implementing Salesforce application and support of cases in Salesforce including but not limited to managing multiple user setup, profiles and roles, customization of objects, fields, record types and validations .
- ❖ Designed user interfaces as per the users involved in the hierarchy with page layout and record types.
- ❖ Designed, developed and deployed the Custom objects, Page layouts, Custom tabs, Components, Visual Force Pages, Apex classes, Controller Classes to suit to the needs of the application.
- ❖ Customized tabs for among different business users groups and business centers.
- ❖ Create various profiles and configured the permissions based on the organizational hierarchy requirements.
- ❖ Designed and developed workflows, validation rules, and customizations within Sales force.
- ❖ Implemented Apex Classes & Triggers and linked them to manage the workflows Implemented in the system.
- ❖ Implemented various Custom Reports and deployed them for different business user levels.

## Academics

- ❖ I have completed Bachelor of Technology (B. Tech) in Computer Science and Engineering from Tirumala Engineering College (JNTUK), with an aggregate of 71.50%
- ❖ Completed Intermediate from Board of Intermediate Education in 2013 with 88.5%.
- ❖ Completed S.S.C from Board of Secondary School Education in 2011 with 72%.

## Achievements

- ❖ Presented a paper on "MOBILE COMPUTING" in National Level Technical symposium.
- ❖ Active participation in technical seminars and games.
- ❖ Participated in BITS Hyderabad "MICROSOFT HACKATHON" seminar

## Academic Project

**Title:** Well organized and secure STEGANOGRAPHY format for data hiding

**Environment:** JDK 1.3,1.4,1.5.

**Operating system:** Windows

**Description:** In this world of technology, the use of internet is rapidly increasing leading to the access of information by unauthorized users. To prevent this, the security aspect of system is designed. We can define security as ensuring that private information remains private and uncompromised in an atmosphere where all other information is free. The notion of "Secured Computer" is relative though the truly secure computer is one powered down in a locked facility that no one has access to.

## Strengths

- ❖ Competitive spirit, hard working.
- ❖ Team Player and Keen Interest to learn new skills.
- ❖ Quick learner, Dedication towards work.
