## WORK EXPERIENCE

### Specialist Software Engineering

#### LTIMindtree

12/2020 - Present pune, India

Developed EDC and OFM projects for CITI Bank

- Developed the EDC project from scratch, which is a centralized project of CITI to handle all boarding of CITI employees on its own platform.
- Developed an OFM project to manage different taxonomies in CITI
- OFM is search-based system that provides refined results in grid
- Implemented filters to get more precise results. Its purpose is basically to manage different taxonomies for CRUD operations and display their results
- Working as frontend developer (Angular), solving complex technical issues of team members

### Lead Software Engineer

#### WorkApps Product Solutions

07/2020 - 12/2020 Pune, India

Developed VideoKyc product

- I had integrated Janus with Angular for two-way communication for chat and video calling.
- I developed the VideoKyc product, which is now used by top 7 Indian banks: HDFC, ICICI, KOTAK, INDUSLND, UJJIVAN, PAYTM, and AXIS
- I had worked as MEAN(Angular, Node) stack developer

### Senior Software Engineer

#### Cybage Software Pvt Ltd

02/2019 - 07/2020 Pune, India

I had worked for client Epsilon for product "Agality Loyalty"

- This project is basically based on digital marketing domain where user gets loyalty points based on certain offers. I had worked as MERN(Mongo, Express, React, Node) stack developer and handled team of size 2.
- I had also developed a web crawler tool on node.js that brings all contacts and email from a particular given website.

## SKILLS
