Projects Summary:

Project #1:

Title : Purchase Order Management

Duration : Feb 2021 – Oct 2022

Team Size : 7

Role : Salesforce Developer

- **Project Description:** The 'Purchase Order Management' aims at providing Automated Processes in Purchase Order Lifecycle. Using which merchants can manage order fulfilment, shipping, payment capture, invoicing, and service by using integrated and customizable business processes and workflows.

Roles and Responsibilities:

- Developed various Custom Objects, Tabs, Custom Fields, Lightning Components and Visual Force Pages and Controllers. Created Users, Roles, Public Groups and implemented role hierarchies, sharing rules and record level permissions to manage sharing access among different users.
- Designed and deployed workflows, validation rules, Approval Processes and Auto-Response Rules for automating business logic.
- Developed and configured various Reports and Report Folders for different user profiles based on the need in the organization.
- Created and maintained the documentation for Design, Migration, and Integration.
- Created page layouts, search layouts to organize fields, custom links, related lists, and other components on detail pages.
- Implemented Standard and Custom Apex Controllers to handle business logic and used debug logs to trace the execution.
- Set up custom business logic in Market to trigger campaign / program related actions based on the changes in custom and standard fields in Salesforce such as Opportunity type / stage and addition of tasks in Salesforce.
- Created Custom Email Templates as part of sending Alerts to users based on the business requirement.
- Created lightning components to render data from associated controllers as needed.
- Developed Triggers to handle bulk records within the governor limits to automate business logic.
- Designed Lightning Components using JavaScript, CSS, HTML.
- Implemented Test Classes to cover positive and negative use cases for Classes and Triggers and achieved close to 100 coverage.

Educational Qualification:

- B.E. in Electrical Engineering from NKO CET, Solapur University with 73% | 2017.
- Diploma from Government Polytechnic Solapur with 79.00% | 2014.
- SSC from Modern High School Solapur with 91.60% | 2011.
