Career Objective:

A professional with one year of work experience at a startup and 2.8 years at a Software company as a Consultant. I have experience in data management/warehousing and now looking to transition into business/data analytics. My goal is to improve my skills, to be able to grow and contribute to self as well as organizational growth.

Education

Bachelors in Technology – Information Technology – SRM University (7.7 CGPA) [2014]

Higher Secondary Education – DPS Mathura Road (73%) [2010]

Professional Experience :

1) **Technical Consultant, Open Destinations Limited, Goa**   *[Aug'18 – Present]*

At Open Destinations, a Travel-based Software Company, I was able to work in teams, interact with the client directly regarding issues and provide effective solutions.

During my experience, I got the opportunity to learn about the Travel Industry, helped resolve Priority issues, learn about API integration, XML debugging, database management and the software cycle.

2) *Manager – Strategy, Keyholders*   *[Dec '17 – Aug'18]*

Being part of a startup was a unique experience, it is a property management company based out of Goa, where the company hosts the guests on behalf of owners in their short-term rentals. My profile involved multi-tasking.

Website Content & Layout : Designing the layout of the website and content writing for the website. (www.keyholders.in)

Communications & Partnerships : Once the owner of a property has signed the contract, I reach out to them to list their property on various platforms.

Operations : Handling bookings on 5 booking platforms, Guest Communication & Support, Listing & Channel management as well as curating experiences. Successfully increasing footfall at various properties.

Certification:

1. "The Data Science Course 2021: Complete Data Science Bootcamp" - It covered topics such as Probability, Statistics, Python, Advanced Statistical Methods, Mathematics, Deep Learning, Tableau and much more.

2. "An Entire MBA in 1 Course"

Extra-Curricular Activities

Internship at Doordarshan, 2013

Final year project – Automatic Classifier for risk assessment in individuals for Lung Cancer

Additional Skills : Microsoft Office, Communications Support, Multilingual, Quick Learner
