**Career Objective** :To explore different software technologies and frameworks. Design and Develop quality architectures in Java based software applications.

### **Key Skills:**

Backend Programming : Core Java(7,8,11) , J2EE ( Servlets, JSP) , JDBC  
Backend Frameworks : Struts 1.x and 2.x ,Spring (IOC, MVC, AOP, Boot, Security) , Hibernate, JPA, Micro services, Design patterns, Webservices (Soap & Rest API)  
Database : Oracle 11g & 12c , My-SQL 5.0 , PL/SQL , SQL-Yog, MongoDB, NO-SQL Booster, SQL developer, Toad 10.6, H2, PostgreSQL, PgAdmin 4  
Web & App servers : Apache -Tomcat, JBoss , IBM Web-sphere, Web logic, Glassfish, Docker, Kubernetes, Jenkins, AWS, Kafka  
Tools : Eclipse, Net Beans, Spring Tool Suite, Red Hat developer, IntelliJ IDEA, File zilla, iReport 5.1, Putty, SVN 4.1, Ant build, Maven, BIRT Report, Node.js 6.10, Visual Studio, Git Lab, Sonar-Lint, Agile, SoapUI, Postman, Advanced Rest Client, TestNG, JIRA Align, Code cloud, NVDA, Veracode , Wave plugins, Lean kit, I-Track, Space Tool, CI/CD  
UI Programming : HTML 5, CSS 3, Java Script  
UI Frameworks : J-Query , Ajax, Angular JS, Angular 8 and 11, JSF, Rich Faces, Bootstrap  
Testing : Junit, Manual, Selenium  
Domain of Projects : E-Commerce, ERP, Automotive, Telecom, Banking, Air & Ship Cargo

### **Work Experience:**

#### IT Experience

- ❖ 5.10 years of experience as a Java developer.
- ❖ 3 months in Banking application.
- ❖ 3 months of course done for Java developer.

## Non-IT Experience

- ❖ 1.4 Years of Non-voice process experience as a Database executive.

## IT Experience

### **1) Company Name: Primus Global Technologies Pvt Ltd (Client IBM)**

**Designation:** Java Full Stack Developer

#### **Job Summary :**

- Project requirement analysis, Strategy planning.
  - Java based Architecture design and Development using JSP ,Jquery, **AngularJs, Angular, Spring-MVC** , Struts MVC & HQL , **Spring Boot, Microservices** , Web services frameworks.
  - Functional testing, Unit testing, Performance testing.
  - UAT Testing
- Worked as **Java Full Stack Developer** in client location **IBM** Company from Parent company **Primus Global Technologies Pvt Ltd** for 2.5 years from date 22-January-2021 to 30-May-2023.

#### **Project 1: EIS**

Client: IBM - AT&T, USA

Period: 22-January-2021 to 31-May-2022

Description: **EIS (Enterprise Infrastructure Solutions)** Empowering government with integrated solutions to connect, protect, virtualize, and manage across wired and wireless networks. EIS mainly they have the products are Mobility Services, Internet of Things, Internet and networking services, Voice and Collaboration, Cyber security, Cloud services , 5G & Edge Solutions. Industries are Energy & utilities, Financial services, Healthcare, Hospitality. Solutions are Cyber security, Remote workforce. This project have several technical modules are Inventory, Product Catalog, Financial & Billing, Task Order , Order , Reports, Customer managements.

Website: URL is <https://www.business.att.com>

Role: Team Member (Java Full Stack Developer)

Environment: **HTML, CSS, Java Script**, jQuery, Ajax, **AngularJs, Angular 8** & above with ag-grid, Bootstrap, JSP, **Java 1.7 & 1.8**, **Spring MVC, Spring Boot, Microservices**, Rest API , Oracle, **MySQL, PL/SQL**, Junit, Manual testing , Selenium testing, Agile

Tools: JDK , Eclipse , Apache -Tomcat, SQL Developer, TestNG

Responsibilities:

- Developing the Code as per the requirements.
- Involved in developing Java code using JSP , JQuery, AngularJs, Angular 8 & above, Spring MVC, Spring Boot, Microservices, Rest API, Oracle.
- Writing UI/Business validations for the owned use cases.
- Functional testing, Unit testing, Integration testing and Performance testing by using Junit ,manual, selenium.

**Project 2: SPP**

Client: IBM - AT&T, USA

Period: 01-June-2022 to 31-March-2023

Description: **SPP (Service Provisioning Platform)** project support voice calls using BVOIP, CVOIP and UVP applications. BVOIP(Business voice over internet protocol) receives the service orders from sales team to SPP and provide the provision in SPP for voice calls and send the response from SPP to Customer. CVOIP(Consumer voice over internet protocol) for validations to determine if the order is valid, UVP(Universal voice platform). UVP supports for VOLTE like 4G and 5G.

Website: URL is [SPP - SPP Home \(att.com\)](http://SPP - SPP Home (att.com))

Role: Team Member (Java Developer)

Environment: HTML, CSS, Java Script, jQuery, Ajax, JSP, Java 1.7 & 1.8, Struts MVC 1.x & 2.x, Oracle, My-Sql, PL/SQL, Junit, Agile

Tools: JDK , Eclipse , Putty, SQL Developer, Win-SCP

Responsibilities:

- Developing the Code as per the requirements.
- Involved in developing Java code using JSP , JQuery, Struts MVC, Oracle.
- Writing UI/Business validations for the owned use cases.
- Unit testing, Functional testing, Assembly testing and Performance testing.

**Project 3: BC**

Client: IBM - AT&T, USA

Period: 01-April-2023 to till today

Description: **BC (Business Center)** project have the portals are Cloud solutions, Cybersecurity delivery and operations, Express ordering, Secure access network edge, Express ticketing, Wi-Fi services.

Website: URL is [AT&T Business Center](http://AT&T Business Center)

Role: Team Member (Java Developer)

Environment: **HTML, CSS, Java script**, JQuery, Ajax, **AngularJS, Angular 8** & above with ag-grid, JSP, **Java 1.8, Spring-Boot, Microservices, Spring MVC**, Web services Rest-API, **SQL**, MongoDB, Junit, AWS. Agile

Tools: JDK , Eclipse , Maven, Soap UI, NO-SQL Booster

Responsibilities:

- Developing the Code as per the requirements.
- Involved in developing Java code using JSP , AngularJS, Angular 8 & above, Spring MVC, Spring Boot, Microservices, Web services, MongoDB.
- Writing UI/Business validations for the owned use cases.
- Unit testing, Functional testing, Assembly testing and Performance testing.

## **2) Company Name: Singapore Infotech Pvt Ltd**

**Designation:** Java Developer

**Job Summary :**

- Project Analysis, Strategy planning.+
- Java based Architecture design and Development using JSF and spring-core frameworks.
- Functional testing, Unit testing, Performance testing.
- Production Deployment.
- Worked as Java Developer in **Singapore Infotech Pvt Ltd** Product based company for 3 months contract position from date 06-July-2020 to till 18-September-2020.

### **Project 1: TradeFinOps**

Client: Chemium US, USA

Period: 06-July-2020 to till 18-September-2020

Description: **TradeFinOps (Trade Finance Operations)** main aim is to selling and buying the petroleum products by trading . It has several modules are Sale, Purchase, Logistics, Finance, Documentation, Reports, Operation.

Website: URL is <http://91.74.181.58:8083/TradeFinOps/login.jsf>

Role: Team Member (Developer)

Environment: **HTML, CSS**, JSF, Rich Faces, JDK 1.7, Spring Core, **Mysql.**

Tools: Red hat developer , JBOSS

Responsibilities:

- Developing the Code as per the requirements.
- Involved in developing Java code using JSF and Spring core.
- Writing UI/Business validations for the owned use cases.
- Functional testing, Unit testing, Integration testing and Performance testing of owned use cases.

### 3) Company Name: BSOL Systems Pvt Ltd

**Designation:** Java Developer

#### **Job Summary :**

- Project Analysis, Strategy planning.
- Java based Architecture design and Development using angularjs and spring-rest api frameworks.
- Functional testing, Unit testing, Performance testing.
- Production Deployment.
- Worked as Java Developer in **BSOL Systems Pvt Ltd** Product based company for 7 months contract position from date 18-November-2019 to till 29-May-2020.

#### **Project 1: RRR Systems**

Client: URSA Solutions, USA

Period: 18-November-2019 to till 29-May-2020

Description: **RRR Systems(Revenue Royalty Reporting Systems)** main aim is to generating the reports based on the mapping condition using the source and destination tables. It has several modules are Format config, Create mapping , File Upload, File Process.

Website: URL is <http://182.76.27.242:9090/auth/login>

Role: Team Member (Developer)

Environment: **HTML, CSS, Angular JS**, JDK 1.8, Spring Rest API, Oracle.

Tools: Visual Studio, Eclipse , Glass fish, Toad

Responsibilities:

- Developing the Code as per the requirements.
- Involved in developing Java code using Angular JS and Spring rest API.
- Writing UI/Business validations for the owned use cases.
- Functional testing, Unit testing, Integration testing and Performance testing of owned use cases.

### 4) Company Name: NIIT Technologies Ltd

**Designation:** Java Developer

#### **Job Summary :**

- Project Analysis, Strategy planning.
- Java based Architecture design and Development using Struts frameworks.
- Functional testing, Unit testing, Performance testing.

- Production Deployment.

-Worked as Java Developer in **NIIT Technologies Ltd** Product based company for 8 months contract position from date 08-March-2019 to till 18-Oct-2019.

### **Project 1: GRU - CMS**

Client: Guarulhos Airport, Brazil

Period: 08-March-2019 to till 18-Oct-2019

Description: The **GRU CMS(Guarulhos -Cargo management systems)** main aim is to export and import of cargo shipment through the flight in Guarulhos Airport .

Website: VPN connect <https://SSL.GRU.com.br> and URL is <http://172.31.52.59:9003/CMSWEB>

Role: Team Member (Developer)

Environment: HTML, CSS, Java script, JDK 1.8, JSP, Servlet , Ajax, JQuery, Struts 1.3, SQL , Web Services.

Tools: JDK , Eclipse , SQL developer , Web logic 12.1, BIRT report.

Responsibilities:

- Developing the Code as per the requirements.
- Involved in developing Java code using Struts Framework.
- Writing UI/Business validations for the owned use cases.
- Functional testing, Unit testing, Integration testing and Performance testing of owned use cases.

### **5)Company Name: Technoforte Software Pvt Ltd.**

**Designation:** Java Developer

#### **Job Summary :**

-Project Analysis, Strategy planning.

-Preparing IAR (Impact Analysis Report) and URD(User Requirement Document).

-Java based Architecture design and Development using Spring and Hibernate frameworks.

- Preparing FDD (Functional Design Document) and DDD(Detailed Design Document).

- Functional testing, Unit testing, Performance testing.

- UAT (User Acceptance Testing) Assignment.

- Production Deployment.

-Worked as Java Developer in client location **Toyota Kirloskar Motors Pvt Ltd** Company from Parent Product based company **Technoforte Software Pvt Ltd** for 12 months Permanent position from date 17-august-2016 to till 31-July-2017.

#### **Project 1: New Connect**

Client: Toyota Kirloskar Motors Pvt Ltd.

Period: August-2016 to July-2017

Description: The **New Connect** main aim is to Toyota company communicate with the Dealer. New Connect performs the functionality of Field Quality, Warranty, Dealer Communication, DISHA Infrastructure, Dashboards and batches of Toyota vehicles.

Role: Team Member (Developer)

Environment: JDK 1.7, JSP, Servlet, Ajax, JQuery, Spring, Hibernate, Oracle 11g, Web Services.

Tools: Eclipse, File-Zilla, iReport 5.1, Putty, SVN 4.1, Ant build, IBM Websphere server.

Responsibilities:

- Preparing the Documents.
- Developing the Code as per the requirements.
- Involved in developing Java code using Spring and Hibernate Framework.
- Writing UI/Business validations for the owned use cases.
- Functional testing, Unit testing, Integration testing and Performance testing of owned use cases.

## **Project 2: E - Connect**

Client: Toyota Kirloskar Motors Pvt Ltd.

Period: August-2016 to July-2017

Description: The **E – Connect** main aim is to Toyota company communicate with Supplier. E-Connect provides the functionality of Purchase order, Delivery note, Preliminary order, Pending order, Item details and batches of Toyota .

Role: Team Member (Developer)

Environment: JDK 1.7, JSP, Servlet, Ajax, JQuery, Struts 1.3, JDBC, Oracle 11g, Web Services.

Tools: Eclipse, File-Zilla, iReport 5.1, Putty, SVN 4.1, Ant build, IBM Websphere server.

Responsibilities:

- Preparing the Documents.
- Developing the Code as per the requirements.
- Involved in developing Java, J2EE code using Struts 1.3 Framework.
- Writing UI/Business validations for the owned use cases.
- Functional testing, Unit testing, Integration testing and Performance testing of owned use cases.

## **6) Company Name: Itech Solutions.**

**Designation:** Java Developer

## Job Summary:

- Project Analysis, Strategy planning.
- Database design, Java based Architecture design and Development, Unit testing, Code Review, Performance optimization, Modularization of application and its integration.
- Worked as Java Developer with Service based company Itech Solutions for 11 months Permanent position from date 20-august-2015 to 22-june-2016.

## Project 1: ierp

Customer: Jain university, Bangalore.

Period: Aug 2015 to oct 2015

Description: The **ierp** main aim is to maintain and manage the stocks of Lab equipments ,university accounts , attendance status and Leaves.

Role: Team Member (Developer)

Environment:JDK 1.5 ,JSP, Servlet ,Ajax , jquery, Struts 1.3, JDBC, My-Sql

Tools: Eclipse 5.0,Apache –Tomcat 5.0, SQL-Yog

Responsibilities:

- Developing the Code as per the requirements.
- Involved in developing the JSP and Backend Java, J2EE code using Struts Framework.
- Writing UI/Business validations for the owned use cases.
- Unit testing and integration testing of owned use cases.

## Project 2:Villanjali

Customer: Villanjali Real Estate,Bangalore.

Period: Nov 2015 to Feb 2016

Description: The **Villanjali** Real Estate main aim is to customer visiting the website to buy or rent of property .Customer can Purchase the plots and they can get all information about the plots like Number of bedrooms, kitchen, Hall, corridor.

Role: Team Member (Developer)

Environment:JDK 1.5 ,JSP, Servlet ,Ajax , jquery, Struts 1.3, JDBC, My-Sql

Tools: Eclipse 5.0, Apache –Tomcat 5.0, SQL-Yog

Responsibilities:

- Developing the Code as per the requirements.
- Involved in developing the JSP and Backend Java, J2EE code using Struts Framework.
- Writing UI/Business validations for the owned use cases.

- Unit testing and integration testing of owned use cases.

### **Project 3:UniqueVaccume**

Customer: Unique Vaccume Solutions,Bangalore.

Period: Mar 2016 to June 2016

Description: The **Unique Vaccume** main aim is to customer visiting the website to buy the vaccume cleaners ,vaccume tubes and related accessories.

Role: Team Member (Developer)

Environment:JDK 1.5 ,JSP, Servlet ,Ajax , jquery, Struts 1.3, JDBC, My-Sql

Tools: Eclipse 5.0, Apache –Tomcat 5.0, SQL-Yog

Responsibilities:

- Developing the Code as per the requirements.
- Involved in developing the JSP and Backend Java, J2EE code using Struts Framework.
- Writing UI/Business validations for the owned use cases.
- Unit testing and integration testing of owned use cases.

### **Non-IT Experience**

**1) Company Name:** Sharavathi database services

**Designation:** Database Executive

**Job Summary:**

- Email building and Address appending.
- Worked as non-voice process database executive with Sharavathi database services company for 1.4 years as Permanent position from date 01-march-2014 to 19-agust-2015.

**Certification:**

**1)** Completed Java, J2EE and SQL certification course from 02-December-2013 to 28-Feb-2014 in J-Spiders, Bangalore.

**Qualifications:**

**-Bachelor of Engineering in Computer Science** passed from SJMIT, Visveswaraya Technological University in the year 2013 with 63 %.

**-Diploma in Computer Science Engineering** passed from S.J.M Polytechnic, DTE board in the year 2010

with 67.5 %.

-SSLC/10<sup>th</sup> passed from S.J.M High School, KEA board in the year 2006 with 55.52 %.

**Strength:**

- High Grasping Power.
- Keen Intellect.
- Can work under pressure to meet deadlines.
- Flexible team member

**Hobbies:**

- Cricket, Painting , Reading Books.

**Personal details:**
