# Brian Thornton

I am a seasoned hands-on certified Salesforce architect and developer, I have worked solely with advanced Salesforce APEX (2007), VisualForce (2007), force.com (2009), service cloud (2010) health cloud (2013) and marketing cloud (2015). I wrote my first enterprise java application in 1998. I am the Coauthor and contributor to the official Salesforce Web Application Kit for Nonprofits and I have been fortunate to have presented at several Salesforce conferences. I am one of the worldwide 162 (as of July 2020) certified technical architects, I am an US citizen and I seek full-time employment or contract to hire roles.

I am seeking a new role because my current role involves less hands-on development and building and more architecture.

## EXPERIENCE

### **Salesforce Inc.**

Salesforce Architect &amp; Developer

Professional Services

Birmingham, AL / New York, NY / remote as needed

2010-CURRENT

Salesforce Architect and hands-on developer and professional service consultant for Fortune 500 clients on behalf of Salesforce, Inc. 1) Lead and oversee heads down development and engineering of remote and overseas development resources for 250 salesforce orgs 2) Oversee first health cloud deployment and handover to third-part system integrator. 3) Oversee internal development and BETA testing of the Lightning Experience Readiness Check. 4) Operate technical team for the Salesforce Health Cloud Data Model
