# Erik Rojas

Senior Full-Stack Developer ( React.js, Vue.js, Angular, Node.js, Django, Ruby on Rails, Laravel, React Native, Unity3d)

Vancouver, British Columbia, Canada

## Summary

I am full-stack developer with 10+ years of experience in web and mobile development and project management. My passion tends to land on progressive web application development using React, Vue, Angular and other advanced JavaScript frameworks. I also take great care and interest in creating APIs and take a position in back-end development with my strong experience with Node.JS and NoSQL or relational databases with complex taxonomies. And have good experience in app develop with ios and android by using Java, Objective-c, Swift and Unity 3d. My another advantage is I am very familiar with Machine learning.

I can help you with these following skills to achieve your success.

- Front-end development,

\* Advanced JavaScript frameworks - Angular, React/Redux, Vue/Vuex/Vuetify

\* Mobile App Development Experience - Ionic, React Native, Framework7

\* General web technologies - HTML5, CSS3(SASS/LESS/SCSS), Bootstrap(Twitter bootstrap), jQuery

\* Languages - JavaScript ES6/7, TypeScript, GoLang, Python

- Back-end development,

\* Node.js frameworks - Express, Loopback

\* PHP MVC frameworks - Laravel, CodeIgniter, YII

\* Python frameworks - Django, Flask

\* Ruby on Rails, ASP.NET MVC/Core

- Other

\* Mobile App Development - Android, Flutter, Swift, Objective-C, Unity 3d

\* Agile Software Development

- \* Test Driven Development - Mocha/Chai, Protractor, Jasmine, Selenium
- \* Management Tools - ZenHub, Jira, Trello
- \* Operating Systems: Mac OS, Linux, Windows
- \* Tools - GitHub, GitLab, BitBucket
- \* Machine learning

---

## Experience
