OBJECTIVE

I seek challenging opportunities where I can fully use my skills for the success of the organisation.

EXPERIENCE

Adfolks Software LLC

2020 Jan - Till date

Senior Cloud Engineer

Working as Senior cloud engineer for various customers hosted in cloud platforms. Helping customers to build their requirements in public cloud platforms also help them to migrate from on premises to cloud. Focused on Azure and AWS clients to work with cloud technologies and native as well as third party cloud services.

Tata Consultancy Services

2017 March - 2020 Jan

Cloud Engineer

Worked as platform engineer. Main focus was on customers hosted on AWS. Helped customers to build and manage their infrastructure on AWS / Azure cloud. Worked as a team leader in cloud delivery services team.

EDUCATION

College of Engineering Trivandrum, University of Kerala

2016

Bachelor of Technology
7

PROJECTS

Expo 2020 Dubai

Worked as AWS cloud engineer for operations and migration support. Mainly worked on AWS RDS, EC2, S3 and AWS SSM for this project. Also worked on the remediation part before migrating the infrastructure. Created some of the automation scripts for eliminating the day to day operations task.

Dubai Ports World

Worked as azure platform engineer to build and manage multiple infrastructure resources and operations activities. Helping customer to build new environments for migrating applications. Worked on enhancement activities for existing environments. Azure end to end support for the customer. Helped customer to implement checkpoint firewall and management.

Azure WVD deployment

Specialist in Azure WVD deployment. Deployed production and poc WVD for some of the leading customers in UAE like Mubadala Capital, Topazz, ADSS, Averda, DAMAC, ADS Investments, Abudabi Media Company

ADSS DR and Migrations

Worked with ADSS customer for migrating their onprem infrastructure to azure cloud and implemented DR setup to Azure. Mainly focused on azure end to end deployment and support.
