

Resource Name : Rahul Methil
Contact Detail : 9343771879
Email : methilrahul5@gmail.com

Professional Summary:

- Having **7 years** of professional experience in application development with specialization in Java based web technologies, Client Server technologies & Middleware Services.
- Technology exposure of Java SE, Java EE, WebServices(REST).
- Demonstrated exposure in full life cycle implementations with skill in executing Software Development Life Cycle (SDLC) in compliance to quality standards.
- Having strong experience in MVC architecture with DAO design pattern.
- Having hands on experience on writing Controller and Service Classes.
- Good Exposure in handling the front-end parts of the application as well as writing the back-end DB related logic.
- Excellent technical, analytical, problem solving skills.

Academic Qualification:

Degree & Year	Specialization	Percentage	Institute/School
B.E(2010-2014)	IT	77.9	Lakshmi Narain College of Technology
12 th (2010)	PCM	72	Nalanda Public School
10 TH (2008)	ALL	71	Nalanda Public School

Technical Skills:

Technical/Program mistic Skills	Data Structure and Algorithm
Web Servers/ App servers	Apache Tomcat ,Glassfish,JBoss,Weblogic.
JSE Technologies	Collection ,Multithreading, Exception Handling,OOP's Concept,JDBC,
JEE Technologies	Servlets,JSP
Programming languages	Core Java,C ,C++
Web Language and skills	Html 5,Javascript,Angularjs 5.0,CSS 3.
JEE Frameworks	Hibernate 3, Spring3(CORE,MVC,JDBC),Spring Boot
SOA and Web services Technology	Restful (jax-rs 2.0),SOAP,Microservices.
Operating Systems	Windows,Linux
Database	Sql,Oracle
IDE	MyEclipse, MySql workbench.
Tools	Log4j,Apache Maven,Selenium.
Design Pattern	Singleton,Prototype,Factory,Observable

Working Experience:

Company	Duration	Designation
Oracle	1 Sep 2020 to till date	Senior Consultant
Capgemini	June 2018 - 26 Aug 2020	Associate Consultant
Incedo	June 2014 – May 2018	Software Engineer

Project Details:**1 Sep 2020 - Present**

Project Name	TradePortal
Role	Java Developer
Database	Oracle
Domain	Web Based Project
Technologies	Spring 3, Hibernate 3.0,Java 8, ,Git,JavaScript,WebServices,SpringBoot,Microservices,Multithreading,Oops Concepts,Angularjs5,JavaScript,Html5,Css3,Oracle.
Description	Trade portal involves the transfer of goods or services from one person or entity to another, often in exchange for money. Economists refer to a system or network that allows trade as a market . An early form of trade, the Gift economy, saw the exchange of goods and services without an explicit agreement for immediate or future rewards.
Responsibilities	<ul style="list-style-type: none"> • Designing,buildingandmaintaining Java-basedapplications&websites • Contributingandtaking partsoftwareandarchitectural development activities • Developing well-designed, efficient, and testablecode • Conducting software analysis, programming, testing,anddebugging • Troubleshooting and resolving the reported issues and replying to queries in a timelymanner • Preparing and producing releases of softwarecomponents • Producing detailed design documentation • Improve the code quality by implementing bestpractices • Recommending changes to improve establishedjavaapplicationprocesses

June 2019- Aug 2020

Project Name	Swish
Role	Java Developer
Database	MySql
Domain	Banking
Technologies	Spring 3, Hibernate 3.0,Java 8, ,Git,JavaScript,WebServices,Spring Boot,Microservices,Multithreading,Oops Concepts,Angularjs5,JavaScript,Html5,Css3,MySql.

Description	Swish is a mobile payment solution for the largest bank in Sweden. It is both private and corporate customers to transfer money via mobile devices. Get Swish is the company behind real payment solution swish. By enrolling swish service, a person can get access to his account and can make instance payment to another person, company or merchant easily. Enrolled to the service, merchant can receive payments from all private person using swish.
Responsibilities	Involved in Challenging Change request implementation Provided End-to-End testing support to resolve issues Involved actively in defect tracking and defect fixing Provided appropriate estimate and delivered fixes on time.

Jan 2018 – April 2019

Project Name	NFV Orchestration
Role	Java Developer
Database	Mysql
Domain	Telecommunication
Technologies	Spring 3, Hibernate 3.0, Java 8, , Git, JavaScript, WebServices, Spring Boot, Microservices, Multithreading, Oops Concepts, Angularjs5, JavaScript, Html5, Css3, MySql.
Description	Using NFV Test Bed, one or multiple VNF instances can be launched and testing (e.g. Lifecycle, Hardening, Vulnerability, Penetration and viruses) can be performed in the VNF instances for ensuring VNF Image is secure and stable. After testing report is generated by Test bed.
Responsibilities	Implemented Form Beans and their Validations. Writing Custom Validations based up on customer requirement. Used Log4j for logging errors, messages and performance logs. Bug fixing analysis and solution implementation

July 2016 – Dec 2017

ProjectName	Sol Structure
Role	Java Developer
Database	Oracle
Domain	Banking
Technologies	Spring 3, Hibernate 3.0, Java 8, , Git, JavaScript, WebServices, Spring Boot, Microservices, Multithreading, Oops Concepts, Angularjs5, JavaScript, Html5, Css3, Oracle.
Description	Employee have all details and documents. employee information Records the current number of employees according to division department with the automatic updating of figures when people are employed or leave. Keep records of inactive employees (those not in the company any longer) Employees can update their own details which are sent for managerial authorization before being added to the system
Responsibilities	Involved in full lifecycle of the project from requirements Gathering and Analysis. Designed the Web application implementing the Spring mvc framework for Model- View-Controller (MVC) pattern to make it extensible and flexible. Designed JSP's as per the Requirement.

March 2015 – June 2016

Project	Prime Collaboration Assurance
Role	Java Developer
Domain	Telecommunication
Tools	Enterprise Designer - “Built on Eclipse”,Intellij.
Project Description	Prime collaboration assurance is a telecommunication project in which router,switches,telepresence system,Iphone are communicate each other throught CUCM(Communication unified Communication Manager).Cucm is monitoring the activity about each devices and notify.Inventory is about managing infrastructure devices like router,switches,and gateways.In order to manage the devices we ge the devices details using simple network managementprotocol.
Technologies	Spring 3, Hibernate 3.0,Java 8, ,Git,JavaScript,WebServices,Spring Boot,Microservices,Multithreading,Oops Concepts,Angularjs5,JavaScript,Html5,Css3,MySql.
Responsibilities	Involved in full life cycle of the project from requirements Gathering and Analysis. Designed the Web application implementing the Spring mvc framework for Model-View-Controller (MVC) pattern to make it extensible and flexible. Designed JSP's as per the Requirement.
