Nov 2016- Apr 2020: Unimoni Global Business Services Pvt Ltd, Chennai
--

Client Name : UAE Exchange
 Period : Nov 2016- Apr 2020
 Tools : SQL (Sybase), Oracle SQL Developer (4.2.0), IQ, Putty, SSH, Winscp, FileZilla (SFTP), Jboss, Scheduler, VISA Edit Package, Monit, Helpdesk, OCP (Open Shift)
 Web Technologies : JAVA script & XML
 Operating Systems : Windows, Unix/Linux

Description:

Being a Support Analyst, I used to handle the multiple projects like nGAP (PAAS), Amigo, Xpress Money and Money2Anywhere. All these project deals with transfer of fund from one party to another party via different mode. Before transfer of the money, there are multiple processes which need to be accomplished.

Environment: Devops (JENKINS, Docker, Kubernetes, OCP) JBoss, Tomcat, Apache, open shift, micro services, Kibana and Jaeger

Projects2: nGAP (PAAS - Payment as a Service)

Project Description: It's a based on PAAS Concept which is built for Remittance Transactions across the globe. Under this there are several types of Modules included (Flash, Agent onboarding, Integration, Transmission and Pricing etc). All the Modules treat as PODS (Combination of Micro services)

Projects 3: Smart Pay

Project Description: Smart Pay is a way to pay the salary to the employees in UAE as per the rules of Central Bank of UAE. An employer in UAE needs to register with UAE Exchange Branches through a Smart Pay Portal. Once registered through this portal, a biller code will be generated for every employer, after which employer needs to upload the salary details of all employees in a file using the biller code, biller login id and password. And the money is sent by the employer in advance to UAE Exchange that needs to be paid to the employees. Once this has been done, employees can receive their salaries by either going to the branch straight away or loading into cards, which can be used at KIOSK machines

Nov'12–Nov'16: Botree software international Pvt Ltd, Chennai

Projects : CORESROCKY AND CORESTOCKY NG
Language : vb.net, Java and Unix
Data Base : Sybase And MS SQL SERVER 2005,2008
