Others	Microsoft Office

Knowledge

Course	MS-CIT, IOT session, Data Science
Project	Dairy Management System - VISUAL BASIC Transport Management System - VB. Net

Project 1	
Project Title	**Dairy Management System**
Description	This was standalone System. The purpose to build a Dairy Management System is to maintain a daily record of activities. This software reduces manual workload concerning administration and management. Software provides flexibility to register all suppliers, input customers details, collection of milk details, distribution of milk details etc. The software can further help in billing and simplify the process.
Team Size	2
Technology	Visual Basic 6.0, Microsoft Access.

Project 2	
Project Title	**Transport Management System**
Description	This was standalone System. Transport Management System is a robust software built for the transportation sector. Transport owners know how hectic it is to manage details and records in this field. To solve the same complexity Transport Management System maintains complete records of customer payment, booking orders, delivery reports, generating transaction receipts, work like billing, tracking payments, creating reports etc.
Team Size	2
Technology	Visual Studio 2008 (vb.net) , Microsoft Access.

Experience : Fresher
