Winner of Choreo(Skit) organized by Kweizar

Winner of StarBuzz(multilevel compt.) organized by ISTE

Completed several trailheads and earned many badges

SKILLS

Python   Salesforce   Lightning   Apex   trigger

PROJECTS

Diploma Project: INTERACTIVE CALCULATOR
- This project covers conversion calculations very efficiently, effective, interactive and can be used easily by any user. Using this project we can calculate any type of digital operations like binary, decimal, octal, hexadecimal conversions of number, etc. It also helps to detect the classes of IP Address.

Project in Salesforce : Battle Station App
- Project management app that allows users to manage the resources and supplies used to build a Battle Station

Minor Project: FaceP
- This project is a step towards developing a face recognition system which can recognize static images. It can be modified to work with dynamic images. In that case the dynamic images received from the camera can first be converted in to the static one's and then the same procedure can be applied on them

Major Project: FaceNOTE
- The main objective of the project is that, the video captured data is converted into image to detect and recognize it. Further the recognized image of the student is provided with attendance, else the system marks the database as absent.

TRAINING

SalesForce (05/2019 – 07/2019)
At Naresh IT

Python (05/2019 – 07/2019)
At Naresh IT

BSNL (06/2016 – 07/2016)
At Muzaffarpur

InHouse Trainning (06/2015 – 06/2015)
At SLIET

INTERESTS

Playing Chess   Sketching   Playing Badminton
