Work History

- **Sr. Cloud Management Engineer**
Appirio, Jaipur, Rajasthan

Its been more than 4 years in Appirio, I've worked on many projects, Some of them are mentioned below:

Key Impact Sales & System

KI : KeyImpact is a nationwide organization of foodservice experts serving the diverse needs of Manufacturers, Distributors, and Operators across the food, packaging, and supplies categories. I have worked on couple of mini project for KI along with my regular work. I've single handedly handled the mini project and successfully deliver it to customer.

Technology Used :

- Salesforce
- JS & JQuery

2016-06 - Current

Role & Responsibilities

Being a Sr Cloud Management Engineer my responsibilities are :

- Worked on stories sprints and gather the requirement with customer.
- Once the development is done, Make it available for UAT and then PROD.
- Ensure that what we deploy is working as expected.

TTC (The Travel CorporaCon)

TTC : Its tour and travel corporation, Where they provides and arrange tour facilities to tourist across the Europe. Our work was to handle all the functionality for tour directors only. There are following functionalities for Tour Director, TD manages tour, itineraries, seat allocation, meals and various other stuff along with various complex PDF.

Technology Used :

- Salesforce Classic & Angular
- Mobilecaddy

Role & Responsibilities

Being a Sr Cloud Management Engineer my responsibilities are :

- Provide the solution plan to the customer against the stories.
- Manage the angular app, along with SF stories.
- After the development and UAT. I ensure that my work is deploy to PROD

Cartrawler

Cartrawler : CarTrawler is the world's leading B2B travel technology platform providing multimodal transport solutions. They provides more ground-based transport solutions in more cities than they will find anywhere else.

Technology Used :

- Salesforce Classic & Lightning

Role & Responsibilities

Being a independent Engineer my responsibilities were :

- Provide the solution plan to the customer against the stories.
- Align with customer on their requirement.
- After the development of stories, work with release engineer to deploy it to UAT and PROD

Sr. iOS Developer

Pratham Software Inc., Jaipur, Rajasthan

It was a very short time I've spent with Pratham Software. I work on XAMARIN IDE tool to develop cross-platform apps for (iOS, Android and Windows devices)

Relegen

Relegen : Relegen is the developer of a suite of enterprise intelligence tools – cutting-edge technology originally developed for the Australian Defence Force and which is now in use across a wide-range of industry sectors including mining, manufacturing, law enforcement, utilities and more.

Bachelor of Computer Application

I got my Bachelor degree from MCRPV University from 2006 to 2009.

Interests

- Volunteer Work/Community Involvement
- Arts and Gaming
- Travelling
- Cooking

Hobbies

Carrom, Table Tennis, Designing and Watching Movies

- I love playing carrom. Recently my team won Carrom Tournament held in Appirio. That was proud moment for me and my entire team.
- I'm new in Table Tennis, But I'm really enjoying. Its not easy to play as it look likes.
- Designing Poster and T-Shirt is one of my favourite hobbies. I design T-Shirt and Poster when an event takes place.
- Last but not the least, I love watching movies since my childhood. I memorise movie dialogs.
