Address: G.No : 214, Chimbali – Moi Road, Bandal Wasti, Kuruli, Chakan, Pune - 410501.
Cell phone: +91-7709147522/ +91-8668975939

Career Objective

To be a part of a challenging & competitive environment where I can utilize my technical knowledge, skills and gain experience in working as part of a team to research and develop new software products.

Profile

5.10 Years of experience in IT industry developing applications using Core Java and J2EE

Hands on experience in Spring (Core, IOC and Security)

Hands on experience in Spring Boot(Micro services)

Hands on experience in Hibernate

Hands on experience in Web Services (REST and SOAP based WS)

Hands on experience in Angular 9, HTML and CSS.

Hands on experience in Oracle SQL Query, Stored Procedures

Hands on J2EE Technologies (JDBC)

Good Exposure in **Scrum Based Agile Methodology**. Worked in all stages of Software Development Life Cycle. Experience in gathering requirements from the application users or functional team. Formulate the requirements and develop the system design using UML artifacts.

Work Experience

Working as **Full Stack Developer** in **TATA Consultancy Services Ltd.**, Pune.

I

Education

Examination	Percentage	Board/University	Year
MSc(Comp. science)	75%	Pune University	2016
BSc(Comp. science)	79%	Pune University	2014
HSC	66%	Maharashtra State Board	2011
SSC	74%	Maharashtra State Board	2009

Employment History

1. TCS – August 2015 – Till Date

Technical Skills

Languages	JAVA 1.8, TypeScript, Angular 9
Frameworks	Spring(MVC, LOG4J and Security), Spring Boot(Microservices), Hibernate
J2EE	JSP, Servlets, Web Services, XML, JSON, Second Level Caching
Front End Technologies	HTML 5, JavaScript, JSP, CSS, TypeScript and Angular 9
Server Technologies	Tomcat , WAS WebSphere Application Server,Jboss(Wild fly server 10.0), Pivotal Cloud Foundry
Databases	MySQL (5.1), Oracle(4.0.0), AS400(9.5.5), MongoDB, NoSQL
IDEs	STS(3.8.2.RELEASE), Eclipse(NEON.3), Visual Studio
Tools	Jenkins, Fortify Code Analyzer Tool , Tortoise SVN, MAVEN, Sonar, Postman, JIRA, Git, BitBucket

Special Interest Activities: Trekking, Traveling, Swimming, Hanging Out with Friends & Playing Cricket.

Project Undertaken

Project 1: Maggiore car rental (Reservation Module)
Client: Avis Budget Group
Project overview:

Maggiore is a car rental company operating from Italy. It has been acquired by Avis Budget client. It has the main backend processing engine i.e BXML. It receives booking requests from different channels like website portal, mobile application and embedded microsites. In addition to this, BXML also connects to different Payment systems like PSI, PayPal and Airplus for payments and refund services.

Environment and Technologies Used:

Core Java, Spring Boot, Hibernate, Rest and SOAP based web services, WebSphere Application Server , Oracle10, etc.

Roles and Responsibilities:

- Working with design/BA team to implement the design into functional application
- Worked on developing major Microservices Quotation/Create/Modify/Retrieve/Cancel for maggiore car rental application using Spring Boot.

Project 2: Maggiore car rental(PSI Module)
Client: Avis Budget Group
Overview:

Maggiore has the PSI(Payment Solution interface) interface to collect the booking payments from customers.
To interact with PSI(Payment Solution interface) consumed Restful API's which are Login oath(provides Access token), Authorize(verify encrypted credit card details and generate masked & tokenized bank card),Capture Service(it captures amount if DC create RQ successful), Cancel Service(it cancels the transaction if DC request gets failed).

Environment and Technologies Used:

Core Java, Spring Boot, Hibernate, Rest and SOAP based web services, WebSphere Application Server , Oracle10, etc.

Roles and Responsibilities:

- Working with design/BA team to implement the design into functional application
- Worked on developing RESTful web services to interact with Payment Solution

interface for maggiore car rental application

Project 3: Mortgage Angular SSR

Client: Banking Account

Overview:
A mortgage is a loan provided by a bank that enables an individual to purchase a home or property. As part of this project, we develop the Angular ssr pages from where customers can view the pages and submit the mortgage application.

Environment and Technologies Used:

Typescript, CSS, HTML and Angular 9, ICMS, Jenkin, RLM(Release Management Process),

Bitbucket Repository, Jira tool, Git Repository, Service Now tool and Visual Studio.

Roles and Responsibilities:

 ● Working with design/BA team to implement the design into functional application

 ● Worked on developing Angular SSR pages as per the requirement using the design deck and copy deck.

Personal Profile

Name : Marnure Raju Kashinath

DOB : 17 Sept 1993

Current Address : G.No : 214, Chimbali – Moi Road, Bandal Wasti, Kuruli, Chakan, Pune -

410501.

Marital status : Married

Nationality : Indian

Declaration:

I hereby declare that all information said above is true to the best of my knowledge and belief.

Place: Pune

Date:

                                                Marnure Raju

                                                Name and Signature
