

## JASWANTHI VAJRAPU

Contact No: +91-9133851060

Email Id: vajrapujaswanthi527@gmail.com

### OBJECTIVE

---

To deliver excellence as a specialist in Cloud Integration with outstanding challenges in client requirements to bring more value to the organization.

### PROFESSIONAL SUMMARY

---

- Having 6.6 years of experience in IT industry.
- Around 4 years of experience in strong software development and maintenance include Strong Support and Administration in Dell Boomi Connectors called Disk, FTP, SFTP, Database, Sales force, Web Services Listener, HTTP Client, Web Services SOAP Client.
- Dell Boomi Certified Engineer in Atomsphere Integration Cloud (Integration Developer I & II, Administrator & Architect).
- Having hands-on experience in Salesforce, Net Suite, Success factors in Dell Boomi, B2B integrations.
- Experience in logistics transactions like 940,945,943,944 etc.
- Experience in working with Ansi X12, EDIFACT standards.
- Having hands-on experience in API management.
- Experience in any other integration tools like Sterling integration, Map Force is added advantage.
- Having hands-on experience in Design & Developing of complicated Integration problem using Dell Boomi.
- Collaborate with stakeholders to gather integration requirements and translate them into technical solutions.
- Develop and maintain documentation for integration processes, including design specifications, deployment plans, and testing protocols.
- Developed Reusable Components using AtomSphere API and exposed as a Web services.
- Developed POC Hospital Asset to give demo for Client
  - Created API's using Boomi, which connects front end and back end (Database).
- Experience in Build, Unit testing, and supporting during Technical go-live.
- Good hands-on experience in Web Services using SOAP, WSDL and Schemas XSD.
- Developed various reusable components using Atomsphere API objects like Atom Extensions object, deployment object.
- Hands-on experience in Cloud integration tools like Dell Boomi. (Web service, AtomSphere API, Database/Salesforce/SAP Connectors, XML, and CSV files).
- Have experience in application deployments, web services debugging and troubleshooting.

### CERTIFICATIONS

---

- DELL Boomi Certified Associate, Professional developer, EDI

### Professional Summary

---

- Innominds Software Pvt Ltd, Waverock Sez  
2.1, Nanakramguda, Telangana., December 2022 to May 2023.
- Trigeo Technologies Pvt Ltd, Ayyappa Society, Madhapur, Hyderabad, Telangana.,  
April 2019 to July 2022.
- Priki IT Solutions Pvt Ltd, Begumpet, Hyderabad, Telangana., November 2016 to April

2019.

## TECHNICAL SKILLS

---

- DELL BOOMI ATOMSPHERE (Certified).
- Dell Boomi Connectors: SAP, HTTP Client, Web Services Soap Client, Disk, FTP, SFTP, Mail, Active MQ(JMS), Database, Google Sheet, Atom Queue, Sales force, Success Factors, Service now.
- Core Java, Basics of Groovy Scripting
- HTML, XML and JAVASCRIPT.
- MySQL, Oracle.
- EDI, XML, CSV, and JSON,X12, EDIFACT
- Application Maintenance, Agile methodology &SDLC.

## PROJECT EXPERIENCE

---

### Project #1:

**Project Name: MMG**

**Project Description:**

Real-time integration between billing system and frontend users.

**Role:** Developer

**Tools: Dell Boomi, SOAP, RESTful web services**

**Responsibilities:**

- Effective elicitation of business requirements and identification of the appropriate solution aligned to short- and long-term business needs
- Attended Product requirement document walkthroughs
- Prepared Business Requirement documents based on high level requirement shared by client.
- Timely and quality delivery of API's
- Responsible for project estimates and planning
- Requirements Management and Traceability
- Developed 25 REST API's.
- Initial API testing on POSTMAN development environment.
- Extensively used REST service for JSON in implementing the business logic.
- Attended daily scrum call with onsite team, and other necessary communication to facilitate
- Involved in developing of critical integration problem depends on client requirement.
- Mapped all the data entities with business entities as a part of understanding requirements.

### Project #2:

**Project Name: NEXTGEN**

**Migration Project Description:**

Migrating all the integration from old environment to new environment (NEXTGEN)

**Role:** Software Developer

**Domain: Cloud Integration**

**Tools Used: Dell Boomi**

**Responsibilities:**

- Developed Automations to deploy all integrations from one environment to another environment, update extensions, and deploy all processes in one environment.
- Helped in preparing various reports using Atmosphere APIs.
- Worked on design change in sales force projects.
- Migrated all processes using automation to NEXTGEN and did require design changes and end-to-end testing.
- Worked extensively on Atom Queues, made design changes to run the processes parallelly instead of sequentially by changing the configuration in atom queue.

- Have been involved in Go-Live activities.

### **Project #3:**

**Project Name: Novartis**

**Project Description:**

Novartis is a patient-oriented healthcare company which focuses on pharmaceuticals, eye care and generic medicines. We developed interfaces for patient enrollment, personnel details enrollment and exchange of data between interfaces jms, db, sftb, web services, soap client, http client.

**Role:** Developer

**Tools:** Dell Boomi, SOAP, RESTful web services

**Responsibilities:**

- Prepared HLD/LLD document.
- Developing interfaces to integrate the applications
- Build all real time scenarios with SOAP and Restful web Services.
- Build interfaces to capture the data in DB, Error and Audit logging in JMS.
- Developed 20 interfaces.
- 3 integrations with asynchronous mechanism exposing as web services and sending data to rest web services.
- 5 interfaces to replace existing systems which will require JMS Publisher subscriber mechanism.
- 2 interfaces will be listing data from JMS listener and then doing different kinds of lookups to get additional data and then finally sending request to HTTP Client.
- 3 integrations are between SFTP and SFTP with different kinds of transformations before sending to target.
- 2 integrations picking data from Database executing stored procedures transforming to desired format and sent SFTP.
- Developing common interfaces for logging audit data to database, purging archival data.
- Exposed as REST web service to capture failure data and sent mail and to log in one location
- Involved in all code merge activities as a part of the deployment.
- Prepared test case and deployment document
- Performed requirement analysis, Coding, Unit Testing, Integration Testing.
- Prepared design documents, unit test case documents, integration test case documents and go to live IQ documents.
- Developed the Message Flow Diagrams and Process Flow Diagrams to specify business logic of the work flow model, design documents and release notes.
- Provided QA and E2E testing support.
- Worked for production support.
- Highly intuitive, self-motivated and energetic team player and adaptable to challenging environments.
- Have experience in Software Development Life Cycle with good knowledge in the areas of Analysis, Design, Development, implementation, testing and maintenance of application using Waterfall, SCRUM and Agile Life cycles.
- Have experience in application deployments, debugging and troubleshooting.

### **Project #4:**

**Project Name: Experian DRM to SFDC**

**Project Description:**

Real-time integration between DRM to SFDC on various business objects like Product master, product country and Finance BU.

**Role:** Developer

**Tools:** Dell Boomi, SOAP, RESTful web services

**Responsibilities:**

- Produce design document of the proposed system
- Develop code for responsible functionalities
- Help team members in Coding and Unit Testing
- Develop Unit test cases
- Defect Fixing and Production Support.
- Interacted with Onsite Coordinators for troubleshooting issues.

#### **Project #5:**

**Project Name:** MyChoice

**Project Description:**

Real-time integration between billing system and frontend users.

**Role:** Developer

**Tools:** Dell Boomi, SOAP, RESTful web services

**Responsibilities:**

- Effective elicitation of business requirements and identification of the appropriate solution aligned to short- and long-term business needs
- Attended Product requirement document walkthroughs
- Prepared Business Requirement documents based on high level requirement shared by client.
- Involved in developing Script, Processes and Connectors etc.
- Working experience on Dell Boomi Connectors called Web Services Listener, HTTP Client, and Web Services SOAP Client.
- Responsible for development of entire use case (end-to-end)
- Worked for different data formats, such as JSON, XML, and CSV.
- Involved in unit testing and integration testing.
- Involved in different phases like build, deploy and manage.
- Have been involved in Post Go live support.
- Ensure that all the deliverables meet the highest quality and performance standards.
- Providing the required technical documentation.
- Unit testing and Test plans.

#### **POC#1:**

**POC Description:**

Developed POC Hospital Asset to give demo for Client.

**Tools:** Dell Boomi, HTML, CSS, JavaScript, Bootstrap, and AngularJS, Database

**Responsibilities:**

- Created API's using Boomi, which connects front end and back end (Database).
- Created Front end using HTML, CSS, JavaScript, Bootstrap, and AngularJS.

#### **POC#2:**

**POC Description: Boomi AtomSphere API:**

Boomi AtomSphere API allows developers the ability to automate actions that originally were manual user tasks. Common use cases include Building Event Reports, Deploying and Executing Processes

**Tool Used:** Dell Boomi AtomSphere API

**Role:** Developer.

**Responsibilities:**

- Individually contributed for developing POCs.
- Developed Auditing reusable component for execution report, which generates Success/Failure Process execution using **Execution Record and Audit** AtomSphere API objects.
- Developed reusable component using Environment Extensions AtomSphereAPI Object which copies Environment extendable values to another environment

## EDUCATION

---

**Bachelor of Technology** (Computer Science Engg), April 2016.

Jawaharlal Nehru Technological University, A.P.

**Aggregate percentage 66.67.**

## Professional Details

---

- Date of Birth : 5th May 1995
- Gender : Female/Unmarried
- Father's name : V Venkata Rao
- Languages Known : Telugu, English, Hindi

## DECLARATION

---

I hereby declare that the information furnished above is true to the best of my knowledge.

**Place: Mummidivaram**
