Worked as a Salesforce Developer

Project 2:

Project Name:	Travel Expense Reporting	
Client	Confidential (MNC - CMMI level 4 Company)	
Role	Salesforce Developer/Team member	
Environment (with skill versions)	Languages :	Salesforce (LWC),Apex
	Database :	SOQL Server
	Tools :	VS code

Project Description:

The travel app is designed to allow its users to rabbit out from everyday mundane tasks, including the lodging of trips and reimbursement process. The product is an intuitive, user-friendly application (Mobile & Web) to digitize the reimbursement process. The travel app comes with an inbuilt character extraction platform (OCR) that is designed and trained to read copies of bills. We have also designed a supervisor hat that empowers them to make a decision about accepting or rejecting a submitted claim. One of the unique built-in functionalities includes the ability to pre-book an asset that aids in the travel.

Past:

Phoenix Systems, Chennai (Aug 2017 to Aug 2019)
