HIGHLIGHTS

Created automation program that saved $50,000

I have received multiple client accolades for successful project management.

I increased my team's velocity from 60% to 90% over two sprints and delivered the project on time and under budget by 29%.

Coached a team of 15 developers working across multiple projects, with an average budget of over $500,000.

EXPERIENCE

TBA.Group
Aug 2020-Apr 2022

Scrum Master

- Assisted in the development of the product backlog for the next release, refining and prioritizing backlog items using Confluence, JIRA Agile, and Microsoft Excel.
- Facilitated the team assessing and planning for risk by thoroughly reviewing a project's scope, resources, and timeline to identify potential issues before they arose.
- Ensure Agile methodology principles and practices are understood and enacted by cross-functional team members.
- Established departmental responsibilities and coordinated functions among sites, decreasing risk by 14%
- Utilized Agile Scrum practices to help the team increase their velocity within the first year of adoption by 60%

Ceclip
Oct 2017- Oct 2020

Scrum Master

- Establish and promote core scrum and agile principles through best practices and ceremonies with a focus on collaboration,

prioritization, and accountability

- Coordinated deliverables for the budget approval process and communicated status reports to superiors
- Provides and demonstrates best in class agile & DevOps methods, practices & behaviors.
- Organized and improved agile practices and values which increased the productivity and overall team satisfaction by an average of 8%
- Improved support response time by 35% by developing intelligent incident and problem tracking systems, and identifying and addressing risks, roadblocks, and conflicts.
- Facilitated team meetings with the scrum team to update and track team deliverables and overall progress
- Created roadmaps that incorporated success metrics, resource allocation, and risk management

Cecilip
Feb 2014-Oct 2017

Project Coordinator

- Managed multiple projects simultaneously, including external and internal clients, as well as stakeholders. I have a proven track record for working with tight time frames and meeting deadlines.
- Coordinated deliverables for the budget approval process and communicated status reports to superiors
- Reported on KPIs and analyzed current organizational practices to define areas of improvement
- Understanding of project management and the overall software development life cycle, including Agile, Scrum, Waterfall, Kanban, and Software Development Life Cycle (SDLC).
- Created roadmaps that incorporated success metrics, resource allocation, and risk management
