HARUN SOYER

Boston MA 978-566-4066 hrnsoyer@outlook.com

ADDITIONAL INFORMATION

Work Status: Green Card

PROFESSIONAL SUMMARY

- **4 Years and 2 months** of professional experience in Quality Assurance **Manual** as well as **Automated** Testing ,Web-based applications
- Experienced in developing Test Plans and Test Cases based on the business requirements.
- Solid understanding in Software Development Life Cycle (**SDLC**) with contribution in all phases of it.
- Work in **Agile**, **scrum**, and **sprint** environment in order to contribute to projects.
- Good skills in Automation(**UI**) Testing using **Selenium WebDriver** and **Cucumber** Combination and creating **Page Object Model(POM)** for implementing framework.
- Strong ability to centralize web elements by using **XPath** ,**ID, CSS** and **PageFactory Class** on dynamic data.
- Ability in developing **BDD scripts** with **Cucumber Writing** and implementing step definitions
- Ability to Create **Cucumber feature** files by using **Gherkin** language such as **Given, When, Then.**
- Experience **Continuous Integration**(CI) tool **Jenkins** and distributed **version control systems** like **GIT**
- Used **JIRA** bug tracking tool to report application bugs and resolve technical issues.
- Ability to manage Automation Framework using **Java**,**Selenium WebDriver**,**JUnit, MAVEN** and Run test cases in multiple browsers and platforms.
- Ability to work with databases such as **PostgreSQL**,**MySQL.**
- Configured **Maven** build tool for automation projects and maintained all dependencies in **pom.xml** file.
- Experience working,PostgreSQL and wrote SQL queries for **Backend Testing**
- Strong ability using both Manual and Automated testing tools to **Positive** and **Negative,Regression,Smoke** testing.
- Knowledge in **Web Services Testing** using tools such as **POSTMAN(API)** using **CRUD function** (Create,Read,Update,Delete)
- **KARATE (API)** tool for back-end testing by using **Gherkin** language such as **Given, When, Then** and **RESTful (API)** tool
- Strong ability of using Object Oriented Programming Concept **(OOP)** in

Java.

- Perfect interpersonal, **written and verbal communication skills** and problem solving, decision-making skills.
- Quick learner and willing to learn new tools and continuously improve in order to contribute to the company.
- Willing/able to work long hours to complete scheduled tasks.

SKILLS

- **Java**
- **SQL**
- **Maven**
- **Selenium WebDriver**
- **AWS**
- **Jira**
- **Jenkins**

- **Agile**
- **Karete(API)**
- **Git/GitHub,**
- **JUnit/TestNG**
- **Postman(API)**
- **RESTful(API)**

WORK HISTORY

AUTOMATION TEST ENGINEER   *2019 to CURRENT*

South Shore Bank | Boston, MA

- Performed **Automation** and **Manual Testing** in a **Web Based Application**
- Actively participated in Daily **Scrum, Sprint Grooming, Sprint Planning, Sprint Demo, Sprint Retrospective** meetings.
- Centralized web elements by using **XPath** ,**CSS** ,**Name** ,**ID** and PageFactory and **Page Object Model (POM)**
- Wrote test scenarios in **Cucumber** using **Gherkin** language such as **Given, When , Then .**
- Involved requirement traceability matrix (**RTM**) document for mapping the requirement with test cases.
- Bug Reporting and Tracking using **JIRA.**
- Validated the data from Frontend to Back End tables in Postgres Database.
- Performed **Backend testing** using **SQL** queries and JAVA/**JDBC connection** against database to perform validation to check data integrity.

QA TESTER   *2016 to 2018*

QNB Finansbank | TURKEY, Adana

- Preparing **Test cases** and **Test Scripts** based on requirement documents.
- Performed user interface testing manually.
- Performed various tests such as **Smoke, Functional, Regression.**.
- Created **SQL** queries to perform back-end testing in **PostgreSQL** database.
- Bug Reporting and Tracking using **JIRA.**
- Performed Functionality, Positive and Negative, defects in defect management system.

EDUCATION

Bachelors Degree
EGE University, Izmir
