Project Experience:

PROJECT #1: Jazeera Paints.

Project Name : Jazeera Paints.
Client : Jazeera.
Team Size : 14
Web Technologies : Elixir, Node JS, SQL.
Testing Environment : Manual, Automation.
Role : Software Test Engineer.
Duration : July 1stto present.

Jazeera Paints is an e-commerce project related to paints. Here Users can Order the Painting products along with the painting tools. There is a scope for this project in Android & IOS devices as well. Users can book the painter along with the Ordered products. We have different modules in the application like Products. Colors, Tools, DIY, Expert Visit Service etc. We can configure the frontend data at Admin level configuration.

PROJECT #2: Value Labs Solutions.

Project Name : Kumo Technology.
Client : Kumo
Team Size : 27
Web Technologies : .Net, SQL
Testing Environment : Manual, Automation
Role : Software Engineer in QA.
Duration : Nov 13th 2019- June 30th 2020.

Description:
It is a project related to the Loans in the USA. Kumo Technology is one of the clients for the ValueLabs Solutions. In Kumo we have a Loan Portal application & LMS application. LMS app is a Backend for the Loan portal application. Loan portal has been designed for the End user perspective.

Users can create different types of Loans like Construction, Home, Business loans etc. Users are able to upload the required documents and submit them to the Loan officer. Loan officers can verify those uploaded files and validate. Users can get the Loan amount once Loan officers verify the all uploaded documents.

PROJECT #3: innRoad Software Solutions Pvt. Ltd.

Project Name : New Booking Engine.
Client : inn Road.
